## ANOTHER CLOUDBURST

THE FLOOD SWEEPED REGIONS OF WEST VIRGINIA AGAIN VISITED.

REPAIRS ARE DESTROYED

No Additional Loss of Life Is So Far Reported—Some People Who Have Visited the Valley Say That Fully a Hundred Are Dead, While Others Think That Fifty Is the Outside Limit of Fatalities.

Bluefield, W. Va., June 27.—Another destructive storm has visited the flood-swept district, and while no loss of life is yet reported from this second visitation the damage to property has been great. The work done by the large force of men repairing the damage of last Saturday's flood has been destroyed in many places. Details are hard to gather, for the communication destroyed by Saturday's flood has not yet been re-established. A number of the largest heaps of drift were set on fire during the night by some unknown friend of the public health. In this pile of debris it is estimated there were at least 25 dead bodies. The heap is now a pile of ashes.

Williamson, W. Va., June 27.—The estimate of the number of lives lost in the recent flood has now been raised to something like 100. Parties reaching here from the upper end of the flooded district bringing the first authentic information received from the scene of disaster. The party just arrived consisted of Judge E. S. Doolittle of Huntington, Judge Flournoy of Charleston, and Elias Hatfield, deputy sheriff of Mingo county. They left Vivian Sunday morning and their journey to this city was a perilous one.

Judge Doolittle said to the Associated Press correspondent that words could not describe the scene of devastation visited by the flood was thickly settled, but as the population consisted chiefly of miners, who were at work at the time, the large majority of the dead are women and children. Fifteen people are said to have been

drowned at Eckman. At Keystone the loss of life was great, probably 30 persons perishing there.

Will Never Be Identified.

On Dry Fork the loss of life is exceedingly great. Bodies are scattered all along the stream, many of which will never be identified. Seven saloons at Keystone were washed away, four lives being lost in one of them. At Brooke the loss of property is severe, but only three lives are said to have been lost there. The region from Ennis to Davy, 43 miles, is completely in ruins. Hundreds of mine mules can be seen in heaps, intermingled with human bodies.

Roanoke, Va., June 27.—The news from the flood swept district in West Virginia shows no reason for increased estimates of either fatalities or property losses. Fifty is the outside limit of lives lost.

The reports from all over the section are to the effect that while many poor people have lost all yet there is no danger of suffering or want of food. It is believed the coal field will not be entirely restored for many months. No bodies were found during the night or morning. It is impossible to give a full list of those who perished from the fact that many of the bodies were buried without identification.

Up to this time the list of dead amounts to 18; 7 at Keystone, 4 at Algonia, 3 at Eckman, 2 at Shawnee and 2 at Land Graff. These do not include a number who were buried without being identified.

New York to the Far East.

New York, June 27.—The Times says that the Oregon and Oriental Steamship company, which operates a fleet of steamships between Portland, Or., and ports in the Philippines, China and Japan, is seriously considering the establishment of a line from New York to the far East.

Captures and Surrenders.

Washington, June 27.—The war department has published a list of captures and surrenders in the Philippine islands supplementary to the list published on the 15th inst. It shows that the total number of insurgents captured or surrendered up to May 15 last 37,948.

General Wood Is Better.

Havana, June 27.—General Wood, who for several days has been suffering from an attack of gripe and malarial fever, is declared to be better, although he is still confined to his house.

## NATIONAL UNIVERSITY

COMMITTEE READY TO REPORT TO EDUCATIONAL ASSOCIATION AT DETROIT.

MEMORIAL TO WASHINGTON

The Institution Is to Be Located at the Nation's Capital and Will Be Independent of Government Support or Control—Its Object Will Be the Advanced Study of the Liberal Sciences and the Arts.

Chicago, June 27.—The committee of 15, of which President Harper of Chicago university is president, having under consideration the question of whether it is advisable to have a great national university, has completed its work and July 1 will make its report to the educational association at Detroit. After discussing at length the various questions that enter into the erection of a national educational institution the report says: "The committee has been advised of a plan for a non-governmental institution at Washington which may be able to supply all that is desired. This plan is the outcome of action taken by the Washington academy of sciences and by the George Washington Memorial associations. Both organizations have agreed to co-operate to found an institution in the city of Washington as a memorial to George Washington, which shall be maintained to promote the advanced study of the sciences and the liberal arts. Concerning the proposed institution it is assumed:

"First—That it will be independent of government support or control, as it will also be independent of the support or control of existing educational institutions.

"Second—That its objects will be to facilitate the use of scientific and other resources of the government for research, and to co-operate with universities, colleges and individuals in securing to properly qualified persons opportunities for advanced study and research now obtainable only to a limited extent in Washington and not at all elsewhere.

"Third—That its oversight and control will be in the hands of trustees and officers representing the educational experience and ideals of the existing institutions for higher education."

The report announces that the committee in conclusion has adopted a resolution to the effect that a plan is approved for a non-governmental institution known as the Washington memorial institution, to be maintained in Washington, for the purpose of promoting the study of science and the liberal arts at the national capital and of exercising oversight of the advanced studies of duly qualified students in the governmental laboratories and collections.

HENDERSON VISITS THE KING.

Says America Has No More Cordial Friend Than Edward.

London, June 27.—David B. Henderson, speaker of the United States house of representatives, said to a representative of the Associated Press:

"I have never enjoyed a more agreeable half hour interview than the one I had with King Edward. He was perfectly frank and agreeable and in accord with American progress. He looks forward to even more cordial relations than now exists between the English speaking nations. America may depend upon the fact that she has no more cordial friend in the world than King Edward. While the details of our conversation may not be repeated, I can assure my American friends that England may be depended upon in any ordinary controversy which may arise between the United States and the rest of the world."

GET A SLIGHT ADVANCE.

New Scale for Tin Workers Finally Agreed On.

Cleveland, June 27.—After a conference between the American Tin Plate company and representatives of the American Tin Workers' Protective association, which has been in session here several days, a wage scale has been finally agreed upon and signed by the conferees.

It is understood the new scale gives the workmen an advance of about 2 per cent. The men asked for a 10 per cent increase.

The new scale will affect about 20,000 workmen and will go into effect July 1.

Dowieites Driven Out of Town.

Chicago, June 27.—Four Dowieites who went to Evanston to hold an open air meeting were hooted down, rotten eggs, jostled about the street and finally driven out of town. The mob numbered hundreds of people. The police seemed unable to cope with the crowd. No arrests were made.

## ITALY MAKES DENIAL.

No Export Bounty Paid on Sugars by That Country.

Washington, June 27.—An official statement from the Italian government was communicated to the state department during the day to the effect that Italy paid no export bounty on sugar. This action by the Italian authorities follows eight days from the issuance of Secretary Gage's treasury order suspending the liquidation of all sugar imported from or produced in Italy on the ground the treasury had information leading to the belief that Italian sugar received a bounty. Mr. Gage's order was dated June 17. The action of the Italian government was communicated by a cable to the Italian embassy here and was made known to the acting secretary of state, Dr. Hill, by Mr. Carignani, the Italian charge d'affaires.

Mr. Gage's circular did not state positively that Italy paid an export bounty, but said that it appeared highly probable that this was the case and accordingly the liquidation of sugar accounts with Italy were suspended pending further investigation. The declaration now made by the Italian government does not appear to be with any view of raising a sharp issue, but rather to make known in explicit and official language that Italy does not pay this bounty on sugar.

OVER A HUNDRED INDICTED.

United States Grand Jury at Helena, Mon., Makes Its Report.

Helena, Mon., June 27.—The United States grand jury has made final report, returning 102 indictments. They are almost all against land locators in the Missoula land district and charge perjury in swearing that they filed upon lands for personal use, whereas they transferred them soon after securing title. The lands comprise about 15,000 acres and were bought by R. M. Cobban, who afterwards sold them to Senator W. A. Clark. The persons indicted include school teachers, ranchers, servant girls, and, in fact, all classes of people. It is for the recovery of these lands that proceedings were recently instituted by the government against Senator Clark.

DENIED AT THE VATICAN.

Gibbons Did Not Broach Subject of an American Representative.

Paris, June 27.—A dispatch to The Figaro from Rome says that the Vatican denies that Cardinal Gibbons, when recently in Rome, broached the question of an official representative of the United States to the Holy See. The Figaro also says that as a result of the recent conferences between the pope and Cardinal Gibbons the interests of the Catholic church in the Philippines will be entrusted to members of religious orders who are natives of other countries than Spain.

Is Mayor of Cienfuegos.

Havana, June 27.—The recount of the votes cast in the recent election for a mayor of the city of Cienfuegos shows Senor Vieta to have a majority of 500 votes over Senor Figuieria, who was first declared elected. The partisans of Figuieria have asked to have the election of Vieta annulled. General Wood has ordered the military board to declare Vieta mayor of Cienfuegos.

M. de Giers to Be Recalled.

Berlin, June 27.—A special dispatch from St. Petersburg to The Lokal Anzeiger says that M. de Giers, the Russian minister to China, will shortly be recalled from Peking, where he has shown inaptitude. The dispatch further announces that M. de Giers will be transferred to Munich and that his successor at Peking will be M. Paul Lassar, who is an Anglophile.

Cannot Find His Family.

San Juan Porto Rico, June 27.—Lowell D. Hosmer, the former disburser of the public works department, died June 17. His wife and family have been unsuccessfully sought for. At one time they were thought to be at Jacksonville, Fla., or Memphis, Tenn. Americans here took charge of the funeral.

One of the Murderers Confesses.

City of Mexico, June 27.—One of the arrested men suspected of complicity in the murder of Robert Bennett, a British subject engaged in mining at Secualpan, state of Mexico, has confessed and given the name of the leader of the band of assassins. Robbery was the motive.

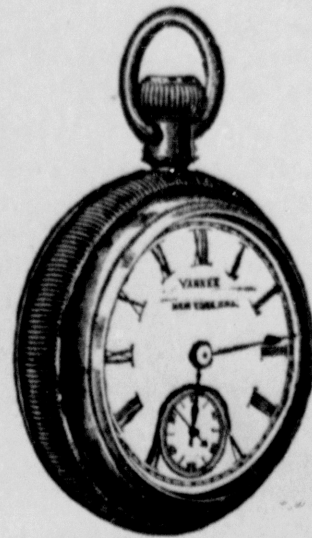

San Francisco, June 27.—The arrival of the transports Thomas and Buford brings nearly all the volunteer army home from the Philippines. There are yet to arrive the Indiana, with the Forty-second regiment, and the Kilpatrick, with the Forty-third. There are now at the Presidio seven regiments awaiting mustering out.

Denies Prevalence of Yellow Fever.

City of Mexico, June 27.—The Official Gazette of the federal government publishes a statement denying that yellow fever is prevalent in the states of Tabasco and Yucatan. The case of fever appeared in San Juan Bostasa early this month, but effective sanitary precautions prevented the spread of the disease.

## ANOTHER CLOUDBURST

THE FLOOD SWEEPED REGIONS OF WEST VIRGINIA AGAIN VISITED.

REPAIRS ARE DESTROYED

No Additional Loss of Life is So Far Reported—Some People Who Have Visited the Valley Say That Fully a Hundred Are Dead, While Others Think That Fifty is the Outside Limit of Fatalities.

Bluefield, W. Va., June 27.—Another destructive storm has visited the flood-swept district, and while no loss of life is yet reported from this second visitation the damage to property has been great. The work done by the large force of men repairing the damage of last Saturday's flood has been destroyed in many places. Details are hard to gather, for the communication destroyed by Saturday's flood has not yet been re-established.

A number of the largest heaps of drift were set on fire during the night by some unknown friend of the public health. In this pile of debris it is estimated there were at least 25 dead bodies. The heap is now a pile of ashes.

Williamson, W. Va., June 27.—The estimate of the number of lives lost in the recent flood has now been raised to something like 100. Parties reaching here from the upper end of the flooded district bringing the first authentic information received from the scene of disaster. The party just arrived consisted of Judge E. S. Doolittle of Huntington, Judge Flournoy of Charleston, and Elias Hatfield, deputy sheriff of Mingo county. They left Vivian Sunday morning and their journey to this city was a perilous one.

Judge Doolittle said to the Associated Press correspondent that words could not describe the scene of devastation between Vivian and Davy. The section visited by the flood was thickly settled, but as the population consisted chiefly of miners, who were at work at the time, the large majority of the dead are women and children. Fifteen people are said to have been

drowned at Eckman. At Keystone the loss of life was great, probably 30 persons perishing there.

Will Never Be Identified.

On Dry Fork the loss of life is exceedingly great. Bodies are scattered all along the stream, many of which will never be identified. Seven saloons at Keystone were washed away, four lives being lost in one of them. At Brooke the loss of property is severe, but only three lives are said to have been lost there. The region from Ennis to Davy, 43 miles, is completely in ruins. Hundreds of mine mules can be seen in heaps, intermingled with human bodies.

Roanoke, Va., June 27.—The news from the flood swept district in West Virginia shows no reason for increased estimates of either fatalities or property losses. Fifty is the outside limit of lives lost.

The reports from all over the section are to the effect that while many poor people have lost all yet there is no danger of suffering or want of food.

It is believed the coal field will not be entirely restored for many months. No bodies were found during the night or morning. It is impossible to give a full list of those who perished from the fact that many of the bodies were buried without identification.

Up to this time the list of dead amounts to 18; 7 at Keystone, 4 at Algonia, 3 at Eckman, 2 at Shawnee and 2 at Land Graff. These do not include a number who were buried without being identified.

New York to the Far East.

New York, June 27.—The Times says that the Oregon and Oriental Steamship company, which operates a fleet of steamships between Portland, Or., and ports in the Philippines, China and Japan, is seriously considering the establishment of a line from New York to the far East.

Captures and Surrenders.

Washington, June 27.—The war department has published a list of captures and surrenders in the Philippine islands supplementary to the list published on the 15th inst. It shows that the total number of insurgents captured or surrendered up to May 15 last 37,948.

General Wood is Better.

Havana, June 27.—General Wood, who for several days has been suffering from an attack of grippe and malarial fever, is declared to be better, although he is still confined to his house.

## NATIONAL UNIVERSITY

COMMITTEE READY TO REPORT TO EDUCATIONAL ASSOCIATION AT DETROIT.

MEMORIAL TO WASHINGTON

The Institution Is to Be Located at the Nation's Capital and Will Be Independent of Government Support or Control—Its Object Will Be the Advanced Study of the Liberal Sciences and the Arts.

Chicago, June 27.—The committee of 15, of which President Harper of Chicago university is president, having under consideration the question of whether it is advisable to have a great national university, has completed its work and July 1 will make its report to the educational association at Detroit. After discussing at length the various questions that enter into the erection of a national educational institution the report says:

"The committee has been advised of a plan for a non-governmental institution at Washington which may be able to supply all that is desired. This plan is the outcome of action taken by the Washington academy of sciences and by the George Washington Memorial associations. Both organizations have agreed to co-operate to found an institution in the city of Washington as a memorial to George Washington, which shall be maintained to promote the advanced study of the sciences and the liberal arts. Concerning the proposed institution it is assumed:

"First—That it will be independent of government support or control, as it will also be independent of the support or control of existing educational institutions.

"Second—That its objects will be to facilitate the use of scientific and other resources of the government for research, and to co-operate with universities, colleges and individuals in securing to properly qualified persons opportunities for advanced study and research now obtainable only to a limited extent in Washington and not at all elsewhere.

"Third—That its oversight and control will be in the hands of trustees and officers representing the educational experience and ideals of the existing institutions for higher education."

The report announces that the committee in conclusion has adopted a resolution to the effect that a plan is approved for a non-governmental institution known as the Washington memorial institution, to be maintained in Washington, for the purpose of promoting the study of science and the liberal arts at the national capital and of exercising oversight of the advanced studies of duly qualified students in the governmental laboratories and collections.

HENDERSON VISITS THE KING.

Says America Has No More Cordial Friend Than Edward.

London, June 27.—David B. Henderson, speaker of the United States house of representatives, said to a representative of the Associated Press:

"I have never enjoyed a more agreeable half hour interview than the one I had with King Edward. He was perfectly frank and agreeable and in accord with American progress. He looks forward to even more cordial relations than now exists between the English speaking nations. America may depend upon the fact that she has no more cordial friend in the world than King Edward. While the details of our conversation may not be repeated, I can assure my American friends that England may be depended upon in any ordinary controversy which may arise between the United States and the rest of the world."

GET A SLIGHT ADVANCE.

New Scale for Tin Workers Finally Agreed On.

Cleveland, June 27.—After a conference between the American Tin Plate company and representatives of the American Tin Workers' Protective association, which has been in session here several days, a wage scale has been finally agreed upon and signed by the conferees.

It is understood the new scale gives the workmen an advance of about 2 per cent. The men asked for a 10 per cent increase.

The new scale will affect about 20,000 workmen and will go into effect July 1.

Dowieites Driven Out of Town.

Chicago, June 27.—Four Dowieites who went to Evanston to hold an open air meeting were hooted down, rotten eggs, jostled about the street and finally driven out of town. The mob numbered hundreds of people. The police seemed unable to cope with the crowd. No arrests were made.

ITALY MAKES DENIAL.

No Export Bounty Paid on Sugars by That Country.

Washington, June 27.—An official statement from the Italian government was communicated to the state department during the day to the effect that Italy paid no export bounty on sugar. This action by the Italian authorities follows eight days from the issuance of Secretary Gage's treasury order suspending the liquidation of all sugar imported from or produced in Italy on the ground the treasury had information leading to the belief that Italian sugar received a bounty. Mr. Gage's order was dated June 17. The action of the Italian government was communicated by a cable to the Italian embassy here and was made known to the acting secretary of state, Dr. Hill, by Mr. Carignani, the Italian charge d'affaires.

Mr. Gage's circular did not state positively that Italy paid an export bounty, but said that it appeared highly probable that this was the case and accordingly the liquidation of sugar accounts with Italy were suspended pending further investigation. The declaration now made by the Italian government does not appear to be with any view of raising a sharp issue, but rather to make known in explicit and official language that Italy does not pay this bounty on sugar.

OVER A HUNDRED INDICTED.

United States Grand Jury at Helena, Mon., Makes Its Report.

Helena, Mon., June 27.—The United States grand jury has made final report, returning 102 indictments. They are almost all against land locators in the Missoula land district and charge perjury in swearing that they filed upon lands for personal use, whereas they transferred them soon after securing title. The lands comprise about 15,000 acres and were bought by R. M. Cobban, who afterwards sold them to Senator W. A. Clark. The persons indicted include school teachers, ranchers, servant girls, and, in fact, all classes of people. It is for the recovery of these lands that proceedings were recently instituted by the government against Senator Clark.

DENIED AT THE VATICAN.

Gibbons Did Not Broach Subject of an American Representative.

Paris, June 27.—A dispatch to The Figaro from Rome says that the Vatican denies that Cardinal Gibbons, when recently in Rome, broached the question of an official representative of the United States to the Holy See. The Figaro also says that as a result of the recent conferences between the pope and Cardinal Gibbons the interests of the Catholic church in the Philippines will be entrusted to members of religious orders who are natives of other countries than Spain.

Is Mayor of Cienfuegos.

Havana, June 27.—The recount of the votes cast in the recent election for a mayor of the city of Cienfuegos shows Senor Vieta to have a majority of 500 votes over Senor Figueroa, who was first declared elected. The partisans of Figueroa have asked to have the election of Vieta annulled. General Wood has ordered the military board to declare Vieta mayor of Cienfuegos.

M. de Giers to Be Recalled.

Berlin, June 27.—A special dispatch from St. Petersburg to The Lokal Anzeiger says that M. de Giers, the Russian minister to China, will shortly be recalled from Peking, where he has shown inaptitude. The dispatch further announces that M. de Giers will be transferred to Munich and that his successor at Peking will be M. Paul Lassar, who is an Anglophile.

Cannot Find His Family.

San Juan Porto Rico, June 27.—Lowell D. Hosmer, the former disbursing officer of the public works department, died June 17. His wife and family have been unsuccessfully sought for. At one time they were thought to be at Jacksonville, Fla., or Memphis, Tenn. Americans here took charge of the funeral.

One of the Murderers Confesses.

City of Mexico, June 27.—One of the arrested men suspected of complicity in the murder of Robert Bennett, a British subject engaged in mining at Seculpan, state of Mexico, has confessed and given the name of the leader of the band of assassins. Robbery was the motive.

San Francisco, June 27.—The arrival of the transports Thomas and Buford brings nearly all the volunteer army home from the Philippines. There are yet to arrive the Indiana, with the Forty-second regiment, and the Kilpatrick, with the Forty-third. There are now at the Presidio seven regiments awaiting mustering out.

Denies Prevalence of Yellow Fever.

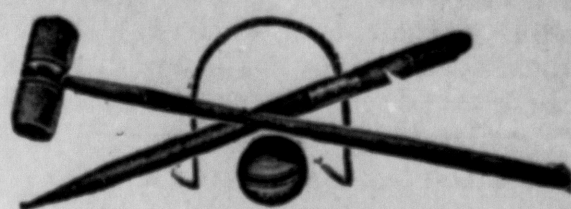

City of Mexico, June 27.—The Official Gazette of the federal government publishes a statement denying that yellow fever is prevalent in the states of Tabasco and Yucatan. The case of fever appeared in San Juan Hostasa early this month, but effective sanitary precautions prevented the spread of the disease.

## WILLIAMS HELD FOR MURDER

Principal in Vermillion Tragedy Locked Up in the County Jail this City.

HELD TO THE GRAND JURY.

Crime for Which He Must Stand Trial Said to be one of Dastardly Design.

Sheriff Hardy arrived in the city this morning from Walker having in custody Solomon Williams, who was arrested sometime ago charged with murder in the first degree for the killing of one James Morris at Vermillion. Williams had his preliminary hearing at Walker yesterday and was held to the grand jury and brought to this city today for safe keeping.

The occurrence of the murder was recited in the papers at the time and it was considered one of the most fiendish in the history of Cass county.

Williams was living on a claim not far from Vermillion. Morris and his family were traveling over the country and stopped at Williams place and asked if they could stay over night or a few days. They received an answer to the affirmative and after they had been there a day or so, Williams is claimed to have called Morris down to a boat landing not far from the house, and fired seven shots at him, three of them taking effect. Morris died shortly afterwards. This was on May 24.

Williams is an inoffensive looking fellow and when asked about the matter, stated that he had nothing to say. He said that the Morris family tried to drive him out, but he does not admit killing Morris.

## CURBSTONE CHAT.

Fred S. John: Business has been fine out on the road and my first week's trip was a successful one.

R. R. Wise: There was some hail out at Long Lake the other evening but I have not heard of any damage to crops.

Master Mechanic Bean: We are busy getting the rolling stock in shape for the big fall shipments of wheat from the northwest.

J. H. Koop: The crops are looking fine around Island Lake. The rains are a little too frequent but prospects are good for a bumper crop.

## Rolling Stock Taxed.

Judge Simpson has decided that the county auditor has a right to list for taxation the rolling stock of a foreign corporation found in this state at the time the assessment is made. This opinion was filed yesterday in the case of Hennepin county against the Peavey Grain Line company. The action was brought to recover taxes alleged to have been due and unpaid on 500 cars belonging to the company for the years 1893, 1894 and 1895. Judge Simpson declares the county can collect taxes only for the 135 cars actually in this state at the time the assessments were made, and has fixed the amount of the judgment at \$631.73. The company is satisfied with this decision and has forwarded its check for the amount. —Minneapolis Times.

## REV. GEO. H. DAVIS BEREAVED.

Shortly After Returning to His Home At Mankato He Learns of His Son's Death.

Rev. George H. Davis, who was the guest of friends in this city a short time ago, received sad news at Mankato last Saturday and a large concourse of his friends in this city will extend sympathy. He received a telegram announcing the death of his eldest son at Boise, Idaho. The following is taken from the Boise Bulletin:

"George J. Davis, manager of the establishment of the Boise Saddlery Company, at Seventh and Main streets, dropped dead in the store today shortly before noon. Mr. Davis was standing on the edge of the counter when he fell. His head struck something that caused abrasions on his forehead and the bridge of his nose.

John M. Simmons, one of the employees, was working in the saddlery shop immediately back of the store. He ran in as soon as he was notified. Davis was still alive, although unconscious and breathing hard. Simmons asked him if he was badly hurt but got no response. He then dashed out for a doctor, returning in a few minutes with Dr. Haley. Davis was still alive, but breathed his last soon after the doctor arrived. The doctor gave it as his opinion that death was caused by heart failure. Some thought Davis suffered concussion of the brain by the fall, pointing out that he had never complained of any trouble with his heart, being a very healthy man. Mr. Davis was the son of the Rev. George H. Davis, rector of the Episcopal church at Mankato, Minn., and a brother of Mrs. George F. Redway of this city.

His father was formerly rector of St. Michael's parish in this city. The deceased came to Boise in 1882 with his parents. He learned the harness makers' trade under Joseph Perrault. He was in business for a time in Weiser, but was burned out. He had been in charge of the Boise Saddlery establishment for some time. "The deceased enjoyed the confidence and esteem of all who knew him. He always had a host of friends here, who are shocked at his untimely death. He leaves a wife and two children."

## SCIENCE'S NEW STEP.

Pictures Now Sent by the Wireless Telegraph.

You can have your picture taken now by wireless telegraphy, says a New York dispatch to the Boston Herald. You can have it wafted through space on the crest of an electrical wave without the intervention of even a wire as a medium and faithfully reproduced in a few minutes for publication in your favorite newspaper.

You may even have your physiognomy hurled through an eight inch brick wall with the speed of a series of lightning flashes and received in good condition for recognition on the far side of the wall without serious detriment to your cherished lineaments.

All this can be done, for the New York Herald has demonstrated it in a series of experiments concluded the other day. This practical achievement should be feasible not only to report without connecting wires the progress of a yacht race off Sandy Hook, as has already been done successfully, but to transmit almost instantaneously and by wireless devices actual illustrations made at sea depicting the critical moments of the struggle.

## Smart Engagement Rings.

According to the smart jewelers, the favorite engagement ring of the day is a pear shaped stone, preferably a diamond, the setting almost invisible, the circle very thin. If a colored stone is chosen instead of a diamond, the accommodating jeweler will surround it with the tiniest of diamonds, making a brilliant line of white fire, but the individual stones so small as to have the effect rather than the appearance of gems, says the New York Commercial Advertiser. A row of five diamonds, encircled with many rubies, is also a favorite engagement ring.

## WILLIAMS HELD FOR MURDER

Principal in Vermillion Tragedy Locked Up in the County Jail this City.

## HELD TO THE GRAND JURY.

Crime for Which He Must Stand Trial Said to be one of Dastardly Design.

Sheriff Hardy arrived in the city this morning from Walker having in custody Solomon Williams, who was arrested sometime ago charged with murder in the first degree for the killing of one James Morris at Vermillion. Williams had his preliminary hearing at Walker yesterday and was held to the grand jury and brought to this city today for safe keeping.

The occurrence of the murder was recited in the papers at the time and it was considered one of the most fiendish in the history of Cass county.

Williams was living on a claim not far from Vermillion. Morris and his family were traveling over the country and stopped at Williams place and asked if they could stay over night or a few days. They received an answer to the affirmative and after they had been there a day or so, Williams is claimed to have called Morris down to a boat landing not far from the house, and fired seven shots at him, three of them taking effect. Morris died shortly afterwards. This was on May 24.

Williams is an inoffensive looking fellow and when asked about the matter, stated that he had nothing to say. He said that the Morris family tried to drive him out, but he does not admit killing Morris.

## CURBSTONE CHAT.

Fred S. John: Business has been fine out on the road and my first week's trip was a successful one.

R. R. Wise: There was some hail out at Long Lake the other evening but I have not heard of any damage to crops.

Master Mechanic Bean: We are busy getting the rolling stock in shape for the big fall shipments of wheat from the northwest.

J. H. Koop: The crops are looking fine around Island Lake. The rains are a little too frequent but prospects are good for a bumper crop.

## Rolling Stock Taxed.

Judge Simpson has decided that the county auditor has a right to list for taxation the rolling stock of a foreign corporation found in this state at the time the assessment is made. This opinion was filed yesterday in the case of Hennepin county against the Peavey Grain Line company. The action was brought to recover taxes alleged to have been due and unpaid on 500 cars belonging to the company for the years 1893, 1894 and 1895. Judge Simpson declares the county can collect taxes only for the 135 cars actually in this state at the time the assessments were made, and has fixed the amount of the judgment at \$631.73. The company is satisfied with this decision and has forwarded its check for the amount. —Minneapolis Times.

## REV. GEO. H. DAVIS BEREAVED.

Shortly After Returning to His Home At Mankato He Learns of His Son's Death.

Rev. George H. Davis, who was the guest of friends in this city a short time ago, received sad news at Mankato last Saturday and a large concourse of his friends in this city will extend sympathy. He received a telegram announcing the death of his eldest son at Boise, Idaho. The following is taken from the Boise Bulletin:

"George J. Davis, manager of the establishment of the Boise Saddlery Company, at Seventh and Main streets, dropped dead in the store today shortly before noon. Mr. Davis was standing on the edge of the counter when he fell. His head struck something that caused abrasions on his forehead and the bridge of his nose.

John M. Simmons, one of the employees, was working in the saddlery shop immediately back of the store. He ran in as soon as he was notified. Davis was still alive, although unconscious and breathing hard. Simmons asked him if he was badly hurt but got no response. He then dashed out for a doctor, returning in a few minutes with Dr. Haley. Davis was still alive, but breathed his last soon after the doctor arrived. The doctor gave it as his opinion that death was caused by heart failure. Some thought Davis suffered concussion of the brain by the fall, pointing out that he had never complained of any trouble with his heart, being a very healthy man. Mr. Davis was the son of the Rev. George H. Davis, rector of the Episcopal church at Mankato, Minn., and a brother of Mrs. George F. Redway of this city.

His father was formerly rector of St. Michael's parish in this city. The deceased came to Boise in 1882 with his parents. He learned the harness makers' trade under Joseph Perrault. He was in business for a time in Weiser, but was burned out. He had been in charge of the Boise Saddlery establishment for some time. "The deceased enjoyed the confidence and esteem of all who knew him. He always had a host of friends here, who are shocked at his untimely death. He leaves a wife and two children."

## SCIENCE'S NEW STEP.

Pictures Now Sent by the Wireless Telegraph.

You can have your picture taken now by wireless telegraphy, says a New York dispatch to the Boston Herald. You can have it wafted through space on the crest of an electrical wave without the intervention of even a wire as a medium and faithfully reproduced in a few minutes for publication in your favorite newspaper.

You may even have your physiognomy hurled through an eight inch brick wall with the speed of a series of lightning flashes and received in good condition for recognition on the far side of the wall without serious detriment to your cherished lineaments.

All this can be done, for the New York Herald has demonstrated it in a series of experiments concluded the other day. This practical achievement should be feasible not only to report without connecting wires the progress of a yacht race off Sandy Hook, as has already been done successfully, but to transmit almost instantaneously and by wireless devices actual illustrations made at sea depicting the critical moments of the struggle.

## Smart Engagement Rings.

According to the smart jewelers, the favorite engagement ring of the day is a pear shaped stone, preferably a diamond, the setting almost invisible, the circle very thin. If a colored stone is chosen instead of a diamond, the accommodating jeweler will surround it with the tiniest of diamonds, making a brilliant line of white fire, but the individual stones so small as to have the effect rather than the appearance of gems, says the New York Commercial Advertiser. A row of five diamonds, encircled with many rubies, is also a favorite engagement ring.

## SCIENCE'S NEW STEP.

Pictures Now Sent by the Wireless Telegraph.

You can have your picture taken now by wireless telegraphy, says a New York dispatch to the Boston Herald. You can have it wafted through space on the crest of an electrical wave without the intervention of even a wire as a medium and faithfully reproduced in a few minutes for publication in your favorite newspaper.

You may even have your physiognomy buried through an eight inch brick wall with the speed of a series of lightning flashes and received in good condition for recognition on the far side of the wall without serious detriment to your cherished lineaments.

All this can be done, for the New York Herald has demonstrated it in a series of experiments concluded the other day. This practical achievement should be feasible not only to report without connecting wires the progress of a yacht race off Sandy Hook, as has already been done successfully, but to transmit almost instantaneously and by wireless devices actual illustrations made at sea depicting the critical moments of the struggle.

## Smart Engagement Rings.

According to the smart jewelers, the favorite engagement ring of the day is a pear shaped stone, preferably a diamond, the setting almost invisible, the circle very thin. If a colored stone is chosen instead of a diamond, the accommodating jeweler will surround it with the finest of diamonds, making a brilliant line of white fire, but the individual stones so small as to have the effect rather than the appearance of gems, says the New York Commercial Advertiser. A row of five diamonds, encircled with many rubies, is also a favorite engagement ring.

## DEATH'S GRIM VISAGE APPEARS.

Ex-County Commissioner Mahle  
Passes To The Great Beyond  
This Morning.

PIONEER OF CROW WING CO.

Remains Of The Late Mrs. Kate  
Carleton Brought To Brain-  
erd For Interment.

The death of Ex-County Commis-  
sioner, Henry Mahle, which occurred  
this morning at 9 o'clock at his farm  
home about seven miles southeast of  
the city, will be a shock to many of  
his friends in this city.

The deceased before moving to his  
farm was a resident of the city and  
was an employee at the Northern  
Pacific shops. He had been a resi-  
dent of Crow Wing county for the  
past 16 years, and being yet a young  
man, his earlier life was spent here.  
He came to this country from Nor-  
way when he was but two years of  
age, his family locating in the south-  
ern part of the state. Mr. Mahle  
was forty years of age at the time of  
his death.

Deceased had been a sufferer for  
some time with that dread disease,  
consumption, but it was not thought  
that the end would come so soon.

A widow and three children, two  
boys and one girl, are left to mourn  
the loss. Rev. D. J. Growe, pastor  
of the Norwegian-Danish Lutheran  
church, of this city, drove out to the  
farm this afternoon and arrange-  
ments will be made for the funeral.

Henry Mahle was a man who, dur-  
ing his residence in the county, had  
made many friends, and few there  
are today who would not express a  
word of sorrow at the sudden de-  
mise. He was a patient father and a  
loving husband and the bereaved  
members of the family have the sym-  
pathy of a large number of friends  
in the city and county.

Mrs. George Gardner and A. B.  
Carleton came in from the west to-  
day with the remains of the late  
Mrs. Kate Carleton, formerly Miss  
Kate Ryan, well known in this city.  
It was a sad journey for the be-  
reaved husband and mother and they  
are receiving the sympathy of a  
large number of friends in the city.  
Mrs. Carleton died at Whitehall,  
Mont., after an operation had been  
performed for appendicitis. After  
marrying Mr. and Mrs. Carleton  
lived in this city for about two years,  
going west about a year ago, where  
Mr. Carleton had employment with  
the Northern Pacific.

The remains were removed to  
Losey & Dean's undertaking estab-  
lishment and tomorrow afternoon at  
2:30 o'clock brief funeral services  
will be held there, after which the  
remains will be removed to St. Paul's  
Episcopal church, where the beauti-  
ful service of the Episcopal church  
will be read by Rev. Roderick J.  
Mooney at 3 o'clock. Interment will  
be made in Evergreen cemetery.

## BOARD OF EQUALIZATION.

Were In Session Yesterday Afternoon And  
Will Meet Again This Evening In  
Council Chambers.

The board of equalization for the  
city of Brainerd was in session yester-  
day afternoon at the council cham-  
bers and heard complaints and work-  
ed on the personal property assess-  
ments. The board will be in session  
this evening again.

After the changes are made, if there  
be any, the board will set a date for  
a hearing of different matters, and  
all can then meet with them.

The board consists of City Clerk  
Low, President Crust, of the city  
council, and the mayor. The mayor  
is not in the city, so there are but  
two of the members sitting on the  
board.

The best goods in every line at  
the lowest prices can be obtained at  
the Cale & Bane department store.

## MAY CONSOLIDATE.

Members of White Cross Lodge, K. P.,  
to Vote on Important Propo-  
sition July 5th.

Quite an important matter is to  
come up for consideration at the  
meeting to be held on the evening of  
July 5th, and the members of the  
order are being notified to be pres-  
ent.

The proposition of consolidating  
Medinah Lodge, No. 84, of Staples  
and White Cross Lodge, of this city  
is to be voted upon. Medinah lodge  
was at one time very strong, but  
most of the members are railroad  
men and from time to time they are  
transferred to different divisions and  
the lodge has lost many of its num-  
bers. Many are now residents of  
Brainerd, others live at Fargo, others  
at Duluth, etc., so it has been  
thought advisable to do something  
in the way of uniting forces.

The lodge in this city of course is  
very strong and the membership con-  
sists of men whose homes are some-  
what more stable. The proposition  
will undoubtedly go through by a  
large majority.

## SUMMER TRAINING SCHOOL.

Superintendent Wilson Busy Making Pre-  
parations—School Opens  
July 8th.

Superintendent Wilson is busy  
making arrangements for the  
teachers' Summer Training School,  
which opens in this city on July 8th,  
and a circular of general informa-  
tion has just been issued from THE  
DISPATCH press.

The school to be held here will be  
most helpful to all classes of teachers.  
The educational work of the school  
will be directed by Prof. Andrew  
Nelson, a graduate of the State Uni-  
versity, and at present assistant  
superintendent of public instruction  
of the state. He will be assisted in  
the work by Prof. O. T. Denny, a  
graduate of Lincoln University, Miss  
Nellie E. Collins, a graduate of the  
St. Cloud Normal, and Miss Rizpah  
DeLaitre, graduate of the St. Cloud  
Normal, and at present instructor  
of music in the schools at Alex-  
andria, Minn.

Besides receiving the benefit of  
instruction from this able corps  
there will be lectures during the  
schools of interest. Lectures on  
popular and timely subjects will be  
given by Hon. J. Adam Bede, Presi-  
dent R. W. Cooper, of Carleton Col-  
lege, State School Inspector Lay-  
fayette Bliss and Prof. O. T. Denny.

One of the very interesting fea-  
tures of the school this year will be  
the splendid exhibition of the works  
of art. The management has about  
completed arrangements with promi-  
nent art stores in the Twin Cities  
for the exhibition of masterpieces.

Two courses will be offered in  
grammar and arithmetic. The sub-  
ject of school management will be  
taken up in the form of practical talks  
or round table discussions, led by  
County Superintendent Wilson and  
Prof. Nelson and Denny. The study  
of pedagogy will not be taken up un-  
less there should be a special demand  
for it. The leading thought in the  
study of history will be to trace the  
origin and growth of the people of  
this country in such a way as to reach  
a better understanding of the present  
conditions and characteristics of the  
nation. The work in geography  
will be offered in two courses and  
will be very interesting.

Twenty minutes three days a  
week will be devoted to music, gen-  
eral chorus work being the promi-  
nent feature. Other studies to be  
taken up will be reading and writing  
civics, elementary algebra, plane  
geometry and physical geography.

## Kill The Hoodo!

Brainerd will be here Saturday  
and Sunday for two games. It is  
hoped and expected that St. Cloud  
will get away from its hoodo long  
enough to win both of the games.—

## MANY JUNE

## WEDDINGS.

The Black-Doak Nuptials Solemn-  
ized at Merriam Park  
Last Night.

TWO WEDDINGS IN THE CITY.

The Englebreton-Olson and the  
Hall-Stearns Ceremonies  
Take Place.

Last evening Mr. Ike Black, the  
well known traveling representative  
for the Marshall-Wellis Hardware Co.  
of Duluth and Miss Jane C. Doak,  
well known in this city, were mar-  
ried at the home of the bride's  
parents, Mr. and Mrs. Robert K.  
Doak, 1963, Carroll avenue, Merriam  
Park. Miss Doak was one of the  
popular young teachers in the city  
the past year and she is a charming  
lady with exceptional capabilities.  
Mr. Black, the groom, is very well  
known here, having been making this  
town for years every thirty days.  
They have the best wishes of a large  
number of Brainerd friends.

Last evening there was a very  
pretty wedding at the First M. E.  
church parsonage, when Mr. Roy  
Hall and Miss Emma Stearns were  
united in the holy bonds of matri-  
mony, the Rev. James Clulow offi-  
ciating. None but a few relatives  
and friends of the couple were  
present. Mr. Lee Stearns was best  
man and Miss Minnie Lawrence was  
maid of honor.

The bride is a popular Crow Wing  
county teacher and is a daughter of  
Mr. and Mrs. L. W. Stearns, who  
live about five miles in the country.  
The groom is very well known in this  
city, being very popular as a fire-  
man. He is driver of the hose cart  
of the city fire department. The  
young couple has the best wishes of  
a large number of friends in this  
city.

Another wedding occurred last  
night at the home of Mr. and Mrs.  
A. E. Englebreton, when Mr.  
Samuel Englebreton and Miss  
Ovedia Olson were made one, the  
Rev. A. H. Carver officiating. The  
groom is a popular clerk in William  
Murray's grocery store and is well  
known in this city and has a large  
circle of friends. The bride is a  
popular young lady from Windsor,  
Minn. THE DISPATCH joins in ex-  
tending congratulations to Mr. and  
Mrs. Englebreton.

## Notice to Water Consumers.

The attention of water consumers  
is again called to the necessity of  
observing the Company's regulations  
about lawn sprinkling.

No lawn sprinkling is permitted  
except by those who have paid the  
rates therefor. These rates are \$2.50  
per season for a twenty-five foot lot,  
and \$5.00 per season for a fifty foot  
lot.

Sprinkling is permitted by paying  
consumers between the hours of 6  
and 9 a. m., and between the hours of  
6 and 9 a. m. only.

The company will be compelled to  
shut off, without notice, the supply  
of consumers who violate these regu-  
lations.

Apart from this consideration, the  
company appeals to the public to  
consult its own interest and co-oper-  
ate with the Co. in preventing the  
senseless waste of water. The re-  
moded filters are working satisfactori-  
ly at present, but they cannot be  
relied on if strained beyond their  
capacity. If consumers want good  
water, they must help the company  
in its efforts to furnish it.

## IMPROVED DRIVING CONDITIONS

Rivermen Are Happy, the Stage of Water  
Having Risen During the Past Few  
Weeks.

J. L. Webb, boommaster for the  
Mississippi and Rum River Boom  
company was in the city last night  
and reports the arrival of the big  
drive of logs at Sauk Rapids last  
night, says the St. Cloud Journal  
Press. The dam was cleared this  
afternoon and the drive will be con-  
tinued on to Minneapolis. The drive  
has established a record from Little  
Falls to St. Cloud making the dis-  
tance of some fifty miles in five days.  
The drive when started from Little  
Falls contained a hundred and fifty  
million. Fifty men were laid off  
Friday the fine driving stage of the  
river making a smaller force ade-  
quate to handle the logs. The Brainerd  
drive will reach Little Falls by  
Wednesday night.

Rivermen are happy at the im-  
proved driving conditions, the stage  
of water having risen some fifteen  
inches in the past week, with a  
higher level yet to come, for the up-  
country tributaries are overflowing  
their banks and constantly adding  
to the volume of water in the main  
river. Logs that have been "hung-  
up" on the smaller streams in the  
northern part of the state for the  
past two years are coming out with  
the impetus of the high water, and  
the Boom company will make a  
decided cleaning up of the smaller  
streams. The drives on the Crow  
Wing and its tributaries, the Pine  
and its several tributaries and a half  
dozen other streams are doing well  
and by July 10 it is expected to have  
these streams free from the millions  
of feet of logs that have been high  
and dry on the shallow bottoms of  
the streams.

Logs have already been received in  
droves at Little Falls from Crow  
Wing, the Akeley and Pine Tree  
companies being the principal bene-  
ficiaries of the rise of the water in  
these streams. It is the best season  
for driving in many years on the up-  
per Mississippi and the Boom com-  
pany will have dividends for its  
stockholders this year in excess of  
anything ever before heard of. Ac-  
cording to Mr. Webb, the newly in-  
stituted system of handling logs by  
railroad for the Minneapolis, Still-  
water, Sauk Rapids and Little Falls  
mills will have no appreciable effect  
on the business of the Boom com-  
pany as it is but as a drop in the  
bucket.

## SHE'S FOXY.

Mrs. Mary Goddard Besides Assisting in  
Stealing Bicycles Grooms  
a Watch.

It has been learned since Justin  
Goddard and his wife were incarcerated  
in the county jail, having been  
held to the grand jury on the charge of  
grand larceny, the particular crime  
being the theft of two wheels from  
Hoffman's hardware store, that Mrs.  
Goddard is a thief proper and her  
astuteness is only surpassed by the  
dimensions of great cakes of gal-  
vanic go to make up her contriving  
nature.

Shortly after the bicycle occurrence  
Alfred Landquist of Pequot missed  
his watch valued at \$25. His sus-  
picions connected Mrs. Goddard with  
the crime and he came down here  
today and on going to the jail and  
after putting the woman through a  
sweat-box she admitted to having  
stolen the watch and went to her  
humble couch and dug it out from  
beneath the mattress. She got into  
the jail without the watch being  
found, although a thorough search  
of her person was made.

## VANITY OF SAVAGES.

Red Men Love to Pose in Grotesque  
Attire Before the Camera.

As evidence of the extent to which  
the ornamental precedes the useful Ex-  
plorer Humboldt noted the fact that  
the Orinoco Indians in fair weather  
strutted about attired in all the finery  
they were able to procure, their faces  
painted gaudily, their heads decked  
with feathers, their whole aim being to  
strike astonishment to the beholder  
and no regard whatever had for com-  
fort.

When the weather was bad, Hum-  
boldt found that the same men would  
doff their clothing and carry it about to  
save it for display on future sunny  
days.

The same traits are seen today in the  
North American Indians, little modified  
by many years of intermingling with  
civilization.

That part of Pennsylvania avenue,  
Washington, running from Second to  
Sixth street is the favorite promenade  
of visiting Indians. Portions of Sec-  
ond and Third streets, running off the  
avenue, are filled with boarding houses  
especially patronized by the Redskins  
and especially avoided by the whites in  
consequence.

A number of photographers in the vi-  
cinity are the chief attractions of this  
neighborhood for the aborigines. Noth-  
ing so delights them as to strut gravely  
from their boarding houses to these art  
galleries to sit for solemn pictures at  
Uncle Sam's expense, the bill being  
charged in with necessities incidental  
to a visit to the great father.

To deprive the visiting Indian of the  
privilege to sit for his photograph in  
full paint and feathers and a grotesque  
mixture of cheap ready made garments  
with blankets and bear claws would be  
the greatest hardship possible to the  
chieftains.

Showing the same disposition Hum-  
boldt noted, the visitors get themselves  
up more barbarously the closer they  
get to civilization.—St. Louis Republic.

## SAYS IT IS BLACKMAIL.

Man Arrested in Duluth for Alleged  
Murder in Michigan.

Duluth, June 27.—William Groul-  
z, alias La Jole, wanted by the sheriff  
of Bay City for murder, was arrested  
here during the afternoon. Nothing  
is known here of the crime except the  
sheriff's telegram asking the arrest.  
Groul, however, says that it is a case  
of blackmail to extort money from his  
father, who is a saloonkeeper at Bay  
City. His peculiar story of the crime  
is that a young boy named Delorme  
annoyed him one day last November  
and he grew mad and pushed him. A  
few days later the boy sickened and  
died of pneumonia, he says, but he  
was held responsible. He left town  
and has been a fugitive ever since.

It was a sad journey for the bereaved husband and mother and they are receiving the sympathy of a large number of friends in the city. Mrs. Carleton died at Whitehall, Mont., after an operation had been performed for appendicitis. After marrying Mr. and Mrs. Carleton lived in this city for about two years, going west about a year ago, where Mr. Carleton had employment with the Northern Pacific.

The remains were removed to Losey & Dean's undertaking establishment and tomorrow afternoon at 2:30 o'clock brief funeral services will be held there, after which the remains will be removed to St. Paul's Episcopal church, where the beautiful service of the Episcopal church will be read by Rev. Roderick J. Mooney at 3 o'clock. Interment will be made in Evergreen cemetery.

### BOARD OF EQUALIZATION,

Were In Session Yesterday Afternoon And  
Will Meet Again This Evening In  
Council Chambers.

The board of equalization for the city of Brainerd was in session yesterday afternoon at the council chambers and heard complaints and worked on the personal property assessments. The board will be in session this evening again.

After the changes are made, if there be any, the board will set a date for a hearing of different matters, and all can then meet with them.

The board consists of City Clerk Low, President Crust, of the city council, and the mayor. The mayor is not in the city, so there are but two of the members sitting on the board.

The best goods in every line at the lowest prices can be obtained at the Cale & Bane department store.

### MAY CONSOLIDATE.

Members of White Cross Lodge, K. P.,  
to Vote on Important Propo-  
sition July 5th.

Quite an important matter is to come up for consideration at the meeting to be held on the evening of July 5th, and the members of the order are being notified to be present.

The proposition of consolidating Medinah Lodge, No. 84, of Staples and White Cross Lodge, of this city is to be voted upon. Medinah lodge was at one time very strong, but most of the members are railroad men and from time to time they are transferred to different divisions and the lodge has lost many of its numbers. Many are now residents of Brainerd, others live at Fargo, others at Duluth, etc., so it has been thought advisable to do something in the way of uniting forces.

The lodge in this city of course is very strong and the membership consists of men whose homes are somewhat more stable. The proposition will undoubtedly go through by a large majority.

### SUMMER TRAINING SCHOOL.

Superintendent Wilson Busy Making Pre-  
parations--School Opens  
July 8th.

Superintendent Wilson is busy making arrangements for the teachers' Summer Training School, which opens in this city on July 8th, and a circular of general information has just been issued from THE DISPATCH press.

The school to be held here will be most helpful to all classes of teachers. The educational work of the school will be directed by Prof. Andrew Nelson, a graduate of the State University, and at present assistant superintendent of public instruction of the state. He will be assisted in the work by Prof. O. T. Denny, a graduate of Lincoln University, Miss Nellie E. Collins, a graduate of the St. Cloud Normal, and Miss Rizpah DeLaittre, graduate of the St. Cloud Normal, and at present instructor of music in the schools at Alexandria, Minn.

Besides receiving the benefit of instruction from this able corps there will be lectures during the schools of interest. Lectures on popular and timely subjects will be given by Hon. J. Adam Bede, President R. W. Cooper, of Carleton College, State School Inspector Lafayette Bliss and Prof. O. T. Denny.

One of the very interesting features of the school this year will be the splendid exhibition of the works of art. The management has about completed arrangements with prominent art stores in the Twin Cities for the exhibition of masterpieces.

Two courses will be offered in grammar and arithmetic. The subject of school management will be taken up in the form of practical talks or round table discussions, led by County Superintendent Wilson and Profs Nelson and Denny. The study of pedagogy will not be taken up unless there should be a special demand for it. The leading thought in the study of history will be to trace the origin and growth of the people of this country is such a way as to reach a better understanding of the present conditions and characteristics of the nation. The work in geography will be very interesting.

Twenty minutes three days a week will be devoted to music, general chorus work being the prominent feature. Other studies to be taken up will be reading and writing civics, elementary algebra, plane geometry and physical geography.

### TWO WEDDINGS IN THE CITY.

The Englebreton-Olson and the  
Hall-Stearns Ceremonies  
Take Place.

Last evening Mr. Ike Black, the well known traveling representative for the Marshall-Wells Hardware Co. of Duluth and Miss Jane C. Doak, well known in this city, were married at the home of the bride's parents, Mr. and Mrs. Robert K. Doak, 1963, Carroll avenue, Merriam Park. Miss Doak was one of the popular young teachers in the city the past year and she is a charming lady with exceptional capabilities. Mr. Black, the groom, is very well known here, having been making this town for years every thirty days. They have the best wishes of a large number of Brainerd friends.

Last evening there was a very pretty wedding at the First M. E. church parsonage, when Mr. Roy Hall and Miss Emma Stearns were united in the holy bonds of matrimony, the Rev. James Clulow officiating. None but a few relatives and friends of the couple were present. Mr. Lee Stearns was best man and Miss Minnie Lawrence was maid of honor.

The bride is a popular Crow Wing county teacher and is a daughter of Mr. and Mrs. L. W. Stearns, who live about five miles in the country. The groom is very well known in this city, being very popular as a fireman. He is driver of the hose cart of the city fire department. The young couple has the best wishes of a large number of friends in this city.

Another wedding occurred last night at the home of Mr. and Mrs. A. E. Englebreton, when Mr. Samuel Englebreton and Miss Ovedia Olson were made one, the Rev. A. H. Carver officiating. The groom is a popular clerk in William Murray's grocery store and is well known in this city and has a large circle of friends. The bride is a popular young lady from Windsor, Minn. THE DISPATCH joins in extending congratulations to Mr. and Mrs. Englebreton.

### Notice to Water Consumers.

The attention of water consumers is again called to the necessity of observing the Company's regulations about lawn sprinkling.

No lawn sprinkling is permitted except by those who have paid the rates therefor. These rates are \$2.50 per season for a twenty-five foot lot, and \$5.00 per season for a fifty foot lot.

Sprinkling is permitted by paying consumers between the hours of 6 and 9 a. m., and between the hours of 6 and 9 a. m. only.

The company will be compelled to shut off, without notice, the supply of consumers who violate these regulations.

Apart from this consideration, the company appeals to the public to consult its own interest and co-operate with the Co. in preventing the senseless waste of water. The remodeled filters are working satisfactorily at present, but they cannot be relied on if strained beyond their capacity. If consumers want good water, they must help the company in its efforts to furnish it.

### IMPROVED DRIVING CONDITIONS

Rivermen Are Happy. The Stage of Water  
Having Risen During the Past Few  
Weeks.

J. L. Webb, boommaster for the Mississippi and Rum River Boom company was in the city last night and reports the arrival of the big drive of logs at Sauk Rapids last night, says the St. Cloud Journal Press. The dam was cleared this afternoon and the drive will be continued on to Minneapolis. The drive has established a record from Little Falls to St. Cloud making the distance of some fifty miles in five days. The drive when started from Little Falls contained a hundred and fifty million. Fifty men were laid off Friday the fine driving stage of the river making a smaller force adequate to handle the logs. The Brainerd drive will reach Little Falls by Wednesday night.

Rivermen are happy at the improved driving conditions, the stage of water having risen some fifteen inches in the past week, with a higher level yet to come, for the up-country tributaries are overflowing their banks and constantly adding to the volume of water in the main river. Logs that have been "hung-up" on the smaller streams in the northern part of the state for the past two years are coming out with the impetus of the high water, and the Boom company will make a decided cleaning up of the smaller streams. The drives on the Crow Wing and its tributaries, the Pine and its several tributaries and a half dozen other streams are doing well and by July 10 it is expected to have these streams free from the millions of feet of logs that have been high and dry on the shallow bottoms of the streams.

Logs have already been received in droves at Little Falls from Crow Wing, the Akeley and Pine Tree companies being the principal beneficiaries of the rise of the water in these streams. It is the best season for driving in many years on the upper Mississippi and the Boom company will have dividends for its stockholders this year in excess of anything ever before heard of. According to Mr. Webb, the newly instituted system of handling logs by railroad for the Minneapolis, Stillwater, Sauk Rapids and Little Falls mills will have no appreciable effect on the business of the Boom company as it is but as a drop in the bucket.

Mrs. Mary Goddard Besides Assisting in  
Stealing Bicycles Glomes  
a Watch.

It has been learned since Justin Goddard and his wife were incarcerated in the county jail, having been held to the grand jury on the charge of grand larceny, the particular crime being the theft of two wheels from Hoffman's hardware store, that Mrs. Goddard is a thief proper and her astuteness is only surpassed by the dimensions of great cakes of gal-which go to make up her contriving nature.

Shortly after the bicycle occurrence Alfred Landquist of Pequot missed his watch valued at \$25. His suspicions connected Mrs. Goddard with the crime and he came down here today and on going to the jail and after putting the woman through a sweat-box she admitted to having stole the watch and went to her humble couch and dug it out from beneath the mattress. She got into the jail without the watch being found, although a thorough search of her person was made.

### VANITY OF SAVAGES.

Red Men Love to Pose in Grotesque  
Attire Before the Camera.

As evidence of the extent to which the ornamental precedes the useful Explorer Humboldt noted the fact that the Orinoco Indians in fair weather strutted about attired in all the finery they were able to procure, their faces painted gaudily, their heads decked with feathers, their whole aim being to strike astonishment to the beholder and no regard whatever had for comfort.

When the weather was bad, Humboldt found that the same men would doff their clothing and carry it about to save it for display on future sunny days.

The same traits are seen today in the North American Indians, little modified by many years of intermingling with civilization.

That part of Pennsylvania avenue, Washington, running from Second to Sixth street is the favorite promenade of visiting Indians. Portions of Second and Third streets, running off the avenue, are filled with boarding houses especially patronized by the Redskins and especially avoided by the whites in consequence.

A number of photographers in the vicinity are the chief attractions of this neighborhood for the aborigines. Nothing so delights them as to strut gravely from their boarding houses to these art galleries to sit for solemn pictures at Uncle Sam's expense, the bill being charged in with necessities incidental to a visit to the great father.

To deprive the visiting Indian of the privilege to sit for his photograph in full paint and feathers and a grotesque mixture of cheap ready made garments with blankets and bear claws would be the greatest hardship possible to the chieftains.

Showing the same disposition Humboldt noted, the visitors get themselves up more barbarously the closer they get to civilization.—St. Louis Republic.

### SAYS IT IS BLACKMAIL.

Man Arrested in Duluth for Alleged  
Murder in Michigan.

Duluth, June 27.—William Groulx, alias La Jole, wanted by the sheriff of Bay City for murder, was arrested here during the afternoon. Nothing is known here of the crime except the sheriff's telegram asking the arrest. Groulx, however, says that it is a case of blackmail to extort money from his father, who is a saloonkeeper at Bay City. His peculiar story of the crime is that a young boy named Delorme annoyed him one day last November and he grew mad and pushed him. A few days later the boy sickened and died of pneumonia, he says, but he was held responsible. He left town and has been a fugitive ever since.

My sister explained as well as she could and asked why she wished to know.

## DEATH'S GRIM VISAGE APPEARS.

Ex-County Commissioner Mahle  
Passes To The Great Beyond  
This Morning.

### PIONEER OF CROW WING CO.

Remains Of The Late Mrs. Kate  
Carleton Brought To Brain-  
erd For Interment.

The death of Ex-County Commis-  
sioner, Henry Mahle, which occurred  
this morning at 9 o'clock at his farm  
home about seven miles southeast of  
the city, will be a shock to many of  
his friends in this city.

The deceased before moving to his  
farm was a resident of the city and  
was an employee at the Northern  
Pacific shops. He had been a resi-  
dent of Crow Wing county for the  
past 16 years, and being yet a young  
man, his earlier life was spent here.  
He came to this country from Nor-  
way when he was but two years of  
age, his family locating in the south-  
ern part of the state. Mr. Mahle  
was forty years of age at the time of  
his death.

Deceased had been a sufferer for  
sometime with that dread disease,  
consumption, but it was not thought  
that the end would come so soon.

A widow and three children, two  
boys and one girl, are left to mourn  
the loss. Rev. D. J. Grove, pastor  
of the Norwegian-Danish Lutheran  
church, of this city, drove out to the  
farm this afternoon and arrange-  
ments will be made for the funeral.

Henry Mahle was a man who, dur-  
ing his residence in the county, had  
made many friends, and few there  
are today who would not express a  
word of sorrow at the sudden de-  
mise. He was a patient father and a  
loving husband and the bereaved  
members of the family have the sym-  
pathy of a large number of friends  
in the city and county.

Mrs. George Gardner and A. B.  
Carleton came in from the west to-  
day with the remains of the late  
Mrs. Kate Carleton, formerly Miss  
Kate Ryan, well known in this city.  
It was a sad journey for the be-  
reaved husband and mother and they  
are receiving the sympathy of a  
large number of friends in the city.  
Mrs. Carleton died at Whitehall,  
Mont., after an operation had been  
performed for appendicitis. After  
marrying Mr. and Mrs. Carleton  
lived in this city for about two years,  
going west about a year ago, where  
Mr. Carleton had employment with  
the Northern Pacific.

The remains were removed to  
Losey & Dean's undertaking estab-  
lishment and tomorrow afternoon at  
2:30 o'clock brief funeral services  
will be held there, after which the  
remains will be removed to St. Paul's  
Episcopal church, where the beauti-  
ful service of the Episcopal church  
will be read by Rev. Roderick J.  
Mooney at 3 o'clock. Interment will  
be made in Evergreen cemetery.

### BOARD OF EQUALIZATION.

ments. The board will be in session  
this evening again.

After the changes are made, if there  
be any, the board will set a date for  
a hearing of different matters, and  
all can then meet with them.

The board consists of City Clerk  
Low, President Crust, of the city  
council, and the mayor. The mayor  
is not in the city, so there are but  
two of the members sitting on the  
board.

The best goods in every line at

popular and timely subjects will be  
given by Hon. J. Adam Bede, Presi-  
dent R. W. Cooper, of Carleton Col-  
lege, State School Inspector Lay-  
fayette Bliss and Prof. O. T. Denny.

One of the very interesting fea-  
tures of the school this year will be  
the splendid exhibition of the works  
of art. The management has about  
completed arrangements with promi-  
nent art stores in the Twin Cities  
for the exhibition of masterpieces.

Two courses will be offered in  
grammar and arithmetic. The sub-  
ject of school management will be  
taken up in the form of practical talks  
or round table discussions, led by  
County Superintendent Wilson and  
Prof. Nelson and Denny. The study  
of pedagogy will not be taken up un-  
less there should be a special demand  
for it. The leading thought in the  
study of history will be to trace the  
origin and growth of the people of  
this country in such a way as to reach  
a better understanding of the present

### SHE'S FOXY.

Mrs. Mary Goddard Besides Assisting in  
Stealing Bicycles Glomes  
a Watch.

It has been learned since Justin  
Goddard and his wife were incarcer-  
ated in the county jail, having been  
held to the grand jury on the charge of  
grand larceny, the particular crime  
being the theft of two wheels from  
Hoffman's hardware store, that Mrs.  
Goddard is a thief proper and her  
astuteness is only surpassed by the  
dimensions of great cakes of gal-  
which go to make up her contriving  
nature.

Shortly after the bicycle occurrence  
Alfred Landquist of Pequot missed  
his watch valued at \$25. His sus-  
picious connected Mrs. Goddard with  
the crime and he came down here  
today and on going to the jail and  
after putting the woman through a  
sweat-box she admitted to having  
stolen the watch and went to her  
humble couch and dug it out from  
beneath the mattress. She got into  
the jail without the watch being  
found, although a thorough search  
of her person was made.

### VANITY OF SAVAGES.

Red Men Love to Pose in Grotesque  
Attire Before the Camera.

As evidence of the extent to which  
the ornamental precedes the useful Ex-  
plorer Humboldt noted the fact that  
the Orinoco Indians in fair weather  
strutted about attired in all the finery  
they were able to procure, their faces  
painted gaudily, their heads decked  
with feathers, their whole aim being to  
strike astonishment to the beholder  
and no regard whatever had for com-  
fort.

When the weather was bad, Hum-  
boldt found that the same men would  
doff their clothing and carry it about to  
save it for display on future sunny  
days.

The same traits are seen today in the  
North American Indians, little modified  
by many years of intermingling with  
civilization.

That part of Pennsylvania avenue,  
Washington, running from Second to  
Sixth street is the favorite promenade  
of visiting Indians. Portions of Sec-  
ond and Third streets, running off the  
avenue, are filled with boarding houses  
especially patronized by the redskins  
and especially avoided by the whites in  
consequence.

A number of photographers in the vi-  
cinity are the chief attractions of this  
neighborhood for the aborigines. Noth-  
ing so delights them as to strut gravely  
from their boarding houses to these art  
galleries to sit for solemn pictures at  
Uncle Sam's expense, the bill being  
charged in with necessities incidental  
to a visit to the great father.

To deprive the visiting Indian of the  
privilege to sit for his photograph in  
full paint and feathers and a grotesque  
mixture of cheap ready made garments  
with blankets and bear claws would be  
the greatest hardship possible to the  
chieftains.

Showing the same disposition Hum-  
boldt noted, the visitors get themselves  
up more barbarously the closer they  
get to civilization.—St. Louis Republic.

### SAYS IT IS BLACKMAIL.

Man Arrested in Duluth for Alleged  
Murder in Michigan.

Duluth, June 27.—William Groulx,  
alias La Jole, wanted by the sheriff  
of Bay City for murder, was arrested  
here during the afternoon. Nothing  
is known here of the crime except the  
sheriff's telegram asking the arrest.  
Groulx, however, says that it is a case  
of blackmail to extort money from his  
father, who is a saloonkeeper at Bay  
City. His peculiar story of the crime  
is that a young boy named Delorme  
annoyed him one day last November  
and he grew mad and pushed him. A  
few days later the boy sickened and  
died of pneumonia, he says, but he  
was held responsible. He left town  
and has been a fugitive ever since.

### Muzzling the Ox.

One morning our washwoman, a lady  
of color—very dark color—came hastily  
in and, without any preliminaries, ex-  
claimed: "Sparatualism! What is spar-  
atualism, Miss Cora?"

My sister explained as well as she  
could and asked why she wished to  
know.

"Well, you see," she went on excited-  
ly, "Sarah—she's my daughter, you  
know, and she went last week to live  
with a lady what says she is a sparatu-  
alist, and she says if Sarah takes any-  
thing she'll know it. Sarah's going to  
leave!"—Harper's Magazine.

**DEATHBED CONFESSION**

GEORGE WILLIAMS TELLS THE  
STORY OF AN INDIAN TER-  
RITORY MURDER.

**IMPLICATES FOUR OTHERS**

Three of Them Arrested but the Other  
Is Already in Prison for Stealing  
Cattle—Object of the Crime Was  
Robbery—The Bodies of the Dead  
Were Placed on the Railroad So as  
to Avoid Suspicion.

Vinita, I. T., June 27.—George Williams, lying on his deathbed, has confessed to being an accomplice in the murder last September at Prior Creek, I. T., of T. E. Smith and Green Smith of Sweden, Mo. In his statement Williams also implicated William Nichols of Vinita, William G. Smith and Lon Smith of Prior Creek, and John Smith, the latter now serving a term in the Kansas state penitentiary for cattle stealing. Nichols and William G. and Lon Smith have been arrested. The double murder was committed for robbery and the officials had given up hope of finding the murderers. In his statement Williams said the murdered men were enticed to a point two miles south of Prior Creek under the pretense of engaging in a game of cards and were shot down. The men carried a large sum of money, which they intended to invest in land. After the commission of the crime, Williams said, the money was divided and the bodies placed on the railroad tracks to divert suspicion. The bodies were later exhumed by order of relatives, when the evidence of murder was first found. No clue to the murderers was found, however, and until now the crime had remained a mystery.

**KILLED BY WOLVES.**

John Hochstock of Mellen, Wis., Dies  
After a Terrible Struggle.

Weyauwega, Wis., June 27.—John Hochstock of Mellen went hunting and failed to return. Parties were organized and after a prolonged search one of them came upon the scene of a terrible struggle. Scattered around a large open space in the woods they found the carcasses of seven wolves. The only trace found of Hochstock was a few bones, torn shreds of clothing, which were identified as his, a watch which belonged to him and \$65 in a pocket of his trousers. The soil was torn up and deep footprints of the man's boots were all about, showing that he had met the onslaught of the savage beasts with the phenomenal strength and fortitude of a man who sees death staring him in the face. Woodsmen are unable to account for the attack, as the wolves at this time of the year are generally not fierce.

**NON-UNION MEN FIRED ON.**

Attempted to Go to Work in the Coal  
Mines at Matewan, W. Va.

Matewan, W. Va., June 27.—When the non-union men again attempted to go to work at the Maratime coal mines they were fired upon by strikers at a distance. The non-union men deemed it best to withdraw and did so before any of their number fell victims to the deadly bullets. Another battle is imminent between the strikers and the federal marshals. Ever since they left the union men have been preparing for an emergency, and Marshals Hufford and Telto and Superintendent Lambert of the Maratime mines are shortly expected to arrive here from Charleston. It is said that they are heavily reinforced and ready to put an end to all the disturbance in this direction. The union men are equally determined. Bloodshed is feared.

**BRIDEGROOM SUICIDES.**

Shoots Himself at the Hour Set for  
the Wedding.

Clarinda, Ia., June 27.—Thomas J. Rogers, whose marriage to Miss Inez C. Plank, a young lady of this city, was set for 6 o'clock p. m., shot himself through the head at that hour instead of going to the home of the bride, where the ceremony was to have been performed. Rogers died an hour afterward. About 20 invited guests assembled for the wedding, but soon after 6 o'clock word was brought that the groom had killed himself. Rogers was 27 years of age. Three years ago he inherited \$12,000 from his father. He had spent all of this amount except \$85.

Honors for Von Schwartzkopf's Body.  
Berlin, June 27.—The body of General von Schwartzkopf, formerly general von Waldersee's chief of staff and who met his death in the fire which destroyed the winter palace at Peking April 17, was received with great military honors when the North German Lloyd steamer Witteking, from Hlago April 22, arrived at Bremerhaven. From Bremerhaven the body of the late general will be conveyed to Berlin, where a mourning parade and the firing of the mourning salute will take place.

**Morgan's Gift to Harvard.**

Cambridge, Mass., June 27.—President Elliot announced at the Harvard alumni dinner that John Pierpont Morgan had given more than \$1,000,000 for the erection of three of the five buildings planned for the Harvard medical school in Boston. The gift is for the prosecution of "applied biological research."

**NOTHING EVER REALIZED.**

Affairs of the Gold Fields Syndicate  
Are Wound Up.

Vancouver, B. C., June 27.—The last act in the story of a sensational mining venture was perfected during the day when the concern floated for \$2,000,000 in London under the name of the Gold Fields of British Columbia was wound up. The Gold Fields syndicate owned the Waverly and Tanager mines, which were exploited as extremely rich. Compressor, concentrator and other plants were purchased for over \$100,000, but were dumped along the trail. One pound shares were boomed in London to 32 shillings and then the crash came. Nothing was ever realized on the assets. The whole plant has been purchased by the Marble Bay mines of Texada island and will be installed there at once. The Gold Fields smash was one of the worst in the history of British Columbia mining.

**EVANS WILL NOT QUIT.**

Refuses to Resign at Grand Army  
Dictation.

New York, June 27.—A Herald special from Washington says: Commissioner of Pensions H. Clay Evans declines to resign at the dictation of the Grand Army of the Republic.

He issued an official statement after consultation with personal and political friends, including the president, strongly criticizing General Daniel Sickles of New York, and questioning the statement by the latter and "Corporal" Tanner that during the last campaign the Republican national committee wrote a letter to General Sickles promising that in the event of McKinley's re-election Evans would not be reappointed.

**THREE FATALLY BURNED.**

Dynamite Shell Destroys Cupola in a  
Chicago Foundry.

Chicago, June 27.—Caught in streams of molten metal which poured into the cupola room of the steel foundry department of the American Car and Foundry company seven workmen were frightfully burned, three of them fatally. The explosion of a dynamite shell which had been placed in the cupola with scrap iron caused the accident. When the shell had been heated it burst, breaking the walls of the cupola, the molten metal streaming forth in all directions. Not one of the men in the room escaped the white hot metal.

**ISSUES A MANIFESTO.**

British Navy League Emphasizes De-  
ficiency of the Fleet.

London, June 27.—The Navy league, with a view to enlisting public attention, has issued a striking manifesto in which it emphasizes the deficiency of the fleet of Great Britain, especially in the Mediterranean squadron. The Navy league declares there is a deficiency in all classes of vessels, from battleships to destroyers, as well as a complete absence of fleet auxiliary of all kinds, while many items, such as smokeless powder, telescopic sights, etc., necessary in fighting a fleet, are lacking.

**Line to Alaska Completed.**

Seattle, Wash., June 27.—The Postal Telegraph company announces the completion of telegraphic communication between this city and Port Simpson, Alaska, via Vancouver, Ashcroft, Quesnel and the Skeena river. The line from Dawson in a southerly direction is also being pushed. At present there remains a gap of 80 miles to complete between Hazelton and Telegraph creek. It is hoped to complete this by the beginning of winter.

**Venezuelan Judge Imprisoned.**

Washington, June 27.—A mail report just received at the state department from Mr. Russell, the United States charge at Caracas, confirms the press report of the arbitrary imprisonment by Castro, the acting president, of the judge of the court in the province of Curapano, which acted originally in the asphalt controversy. This is not, however, the chief justice of the supreme court, which is to finally adjudicate these cases.

**Franchise Rights in Porto Rico.**

San Juan, Porto Rico, June 27.—The test case of Arpin of Grand Rapids, Mich., against Valdez has been decided by Judge Holt of the United States district court in favor of Valdez. Arpin contended that the council illegally granted a franchise for water power. The court holds that the council has exclusive authority in such matters. Arpin will appeal to the supreme court.

**Shamrock Again Ready for Trial.**

Glasgow, June 27.—The Shamrock II has bent her new mainstay and shipped the remainder of her gear. She will take a sail stretching spin in the morning. Her tuning up trials will begin this week and continue on the Clyde for 10 days, after which the cup challenger will be dismantled for her passage across the Atlantic.

**Hay Will Not Return to Washington.**

Cleveland, June 27.—Secretary of State Hay has received a telegram from President McKinley consenting to the secretary's going directly to his summer home at Newbury, N. H. Secretary Hay will leave Cleveland during the day and will not return to his duties at Washington for some time.

**Jamaica Wants Boer Prisoners.**

Kingston, Jamaica, June 27.—The chamber of commerce has passed a resolution asking the governor of Jamaica, Sir Augustus Hemming, to request the imperial authorities to send 3,000 Boer prisoners to this island. Jamaica offers many and great advantages for farming.

**SHORT BUT SEVERE.**

Terrific Electric Storm Strikes Pitts-  
burg and Vicinity.

Pittsburg, June 27.—The storm which struck Pittsburg and vicinity was short in duration but terrific in power and disastrous in effect. The lightning and thunder was practically continuous for about 30 minutes. The wind attained a velocity of 30 miles an hour and 46 inches of rain fell. In two minutes of the time 15 of an inch of water fell, which would represent 3 inches an hour. The temperature fell 24 degs. within an hour. One woman was killed instantly by lightning and several other persons may die from the same cause. Numberless houses and churches were struck by lightning and several picnic parties were panic stricken.

**Hanna Gives a Dormitory.**

Gambler, O., June 27.—Senator Hanna and Governor Nash participated prominently in the commencement exercises of Kenyon college, held here. The senator at the alumni luncheon in the afternoon unexpectedly announced that he would give \$50,000 to the institution for the building of a dormitory. A year ago Kenyon college bestowed the degree of LL. D. upon Senator Hanna. At Senator Hanna's request the new dormitory will be called the "Politicians' Barracks."

**Is Guam's First Postmaster.**

Washington, June 27.—A report has been received at the navy department from Commander Seaton Schroeder, the naval governor of Guam, dated May 8, announcing the appointment of Atansio Leitana Perez as postmaster of the islands. He is the first postmaster of Guam and is bonded in \$4,000 Mexican.

**A Tunnel to Monte-Christo's Prison.**

Marseilles talks of having a tube of a new description, says a Paris correspondent of the Pittsburg Dispatch. This will be a submarine line connecting the town with the celebrated "Chateau d'If," made famous by Dumas pere's "Monte-Christo." The railway will be of the electric tubular type. The distance between Marseilles' old port and the island on which the castle stands is a little under one mile, and the steamers take half an hour to do the trip. As visitors would effect an immense saving of time by the tube, the propounder of the scheme fully believes that he may count upon carrying 500 passengers to and from per diem, and if this sanguine estimate is realized he will thus be enabled to cover the enormous expense of the tunneling works and make a profit.

**New American Bank.**

The establishment of an American bank in Berlin and London is contemplated. It is believed that this will open the way for American industrial undertakings and exports in the countries of the old world.

The Washington fire department has under consideration a proposal to purchase two motor vehicles for the use of the chief and assistant chief, who go to all fires, and an electric company is now preparing an estimate of the cost, which will not exceed \$1,000 each, it is said. The idea is to provide the heads of the department with vehicles of greater speed and endurance than those now in use, says the New York Post's correspondent. The chief has two horses at his command, but there are days when owing to several fire calls in remote sections of the city a third and even a fourth horse are necessary for the relief of the two regulars. Should the experiment in Washington of using automobiles for the fire chiefs prove successful, it is expected that other cities will quickly take it up.

**Novel Plan to Stop Drunkenness.**

A Kansas soldier in the Philippines notes a new temperance force which is at work in the army, says the New York Tribune. "We have," he says, "a lot of native soldiers enlisted here. When one of the white boys gets drunk, the captain puts a native soldier over him, and the native puts on lots of airs while marching him around. It grinds the boys so that they wouldn't get drunk if they could."

**To See the New Uniforms.**

St. Petersburg, June 27.—The czar has granted an audience to General von Moltke, nephew of the late field marshal, and Lieutenant Usedom, who have come here with the purpose of submitting the new German field service uniform to the inspection of the czar.

**Car and Horse Cart Collide.**

Montgomery, Ala., June 27.—A collision on Hull street between a trolley car and a horse cart killed J. W. Sykes, captain of steamer No. 2, and injured four others. The conductor and motorman of the trolley were arrested.

**Desires Obligatory Arbitration.**

Managua, Nicaragua, June 27.—Senator Chocano, representing Peru, Bolivia and Argentine, in declaring that arbitration should be obligatory, is expected in Nicaragua soon to advocate her co-operation in the matter.

**Geronimo Goes to Buffalo.**

Kansas City, June 27.—Geronimo, the Apache chief, with six other Indians, passed through Kansas City during the morning on the way from Fort Sill, I. T., to the Pan-American exposition at Buffalo.

**A RARE VOLUME BY PENN.**

Only Known Copy Is Owned by  
Quakers in Philadelphia.

The only known copy of Penn's issue of "Magna Charta," published in 1687 by the Bradford Press, is the property of the Meeting For Sufferings, a representative body of the Friends' yearly meeting in Philadelphia. Its title is "The Excellent Privilege of Liberty and Propriety: Being the Birthright of the Freeborn Subjects of England." The copy is not generally open to the public.

The peculiar significance of this book is that a half dozen years after Penn founded his colony he wished to have the colonists keenly realize that they would have to stand for their rights in the new country as well as the old, where they had been so cruelly persecuted. He wrote this book in order that they might be informed on the constitution of their local government and know what were the legal bases of their rights as citizens.

Curiously enough the only proof there is that this work was William Penn's is the statement made by Chief Justice David Lloyd in 1728, a great Quaker leader who was Penn's attorney general at the time the book was issued. Chief Justice Lloyd was also at that time an intimate friend of William Penn and consequently knew whereof he spoke.

The volume was reproduced in facsimile by the Philobiblon club in 1897 for a limited number of subscribers. The original volume, however, must always remain the rare thing that it is, one of the best expressions of liberty under law that the mind of the great founder could conceive.—Philadelphia Press.

**After a Struggle.**

"Georgie," said a fond mother to a little 4-year-old, "you must take the umbrella to school with you, or you will get wet. It rains hard."

"I want the little one," he said, meaning the parasol.

"No, my dear. That is for dry weather. You must take this and go like a good boy."

Georgie did as he was bid and got to school comfortably.

After school hours it had stopped raining, and Georgie trudged home with the remnants of the umbrella under his arm.

"Oh, Georgie, what have you been doing with my umbrella?" said his mother when she saw the state it was in.

"You should have let me had the little one," said he. "This was such a great one it took four of us to pull it through the door."—Leslie's Weekly.

**NIELSEN'S AMENDS**

By FRANK T. BULLEN.

Hans Nielsen was a big Dane, a sailor on board of an American built ship owned in Liverpool and bound thence to Batavia. I was "the boy." He told me this story one night in the middle watch:

"Twuz like dis: We wuz a-creepin' along up de coast ov Lower California, de weadder bein' beastly, nuttin' but one heavy squall on top ov anoder an de wind a-flyin' all aroun' de compass. One forenoon 'bout seven bells we'd ben a shortenin' down at de main an wuz all a-comin' down helter skelter, de mate an t'ird mate standin' by in de skippers as usual to belt each man as he touched de deck fur not bein' smarter. I come slidin' down de to-mast backstays an dropped on to de deck jest be'ind de mate an Scotty, my chum, landed in front ov him. De mate jest let out an fetched Scotty in de ear. Pore little chap, he flung up his arms, an, spoutin' blood like a whale, dropped all ov a heap in his tracks.

"I don't rightly know how 'twuz, but next t'ing I'd got de mate (an he wuz nearly as big as Sam) by de two ankles, a-swingin' him aroun' my head 'sif he wuz a caps'n an bar. He hit somethin'—I s'pose it wuz de topt's halyard block—an it sounded like a bag ov eggs. De rest ov de proceedin's wuz all foggy like to me, 'cept dat I was feelin' 'bout as big an strong as 20 men rolled into one, an I seemed to be a-smashin' all creation into bloody pieces. I he'd de poppin' ov revolver shots in hundred's, but I didn't feel none ov 'em. Presently it all quieted down, an dere wuz me a-settin' on de deck in de wash ov de lee scuppers a-nursin' Scotty like a baby an him a-lookin' up at me sillylike. De ship wuz all aback, an de rags ov most ov de canvas wuz slattn' an treshin' like bullock whips, while long pennants ov canvas clung to de riggin' all over her.

"Well, I begun to git scared, 'cause I couldn't sort it out at all, until some ov de oder fellers come from somewhere, an we sot down along de spars, while dey told me, all de while keepin' deir eyes on me an lookin' 'sif dey wuz ready to git up an scoot if I moved. It 'peared I'd simply sailed in 'sif I'd been made ov iron an slaughtered dem officers right an left with nuttin' but me bare hands an takin' no more notice ov deir six shooters dan if dey'd ben pea guns. An right in de t'ick ov it dean comes a regular hurrik'n squall, ketchin' de flat aback an rippin' de kites off'n her 'sif dey wuz paper. Most ov de fellers, secin' de hand I had, chipped in, an it wuz a regular clean sweep. All t'ree mates, carpenter an stoard an de ole man, blast him, wuz dead, an dey said I'd killed 'em all.

"But somethin' had to be done, fur none ov us thought de late officers ov de 'Zekiel B. Peck wot' hangin' fur, so we made to shift to run her in fur de land, due east. When we got widin' 20 mile ov it, we pervisioned a couple ov boats an set fire to her, waitin' till she got well a-got, an den lowerin' an pullin' fur de beach. It come off all right, an me an Scotty wandered ov country till we got steady work on a ranch (sort ov farm) an we 'lowed we wouldn't never go to sea no more. We wuz very happy fur 'bout a year, until Scotty began to weaken on me. He'd picked up wid some gal at a place a few mile off, an I wuz out ov it. Last we fell out, an after a many words 'd ben slung between us he up'n call me a bloody murderer. 'Twuz all over in a second, an I wuz nussin' him in my arms agen like I did once before, but his head hung over limp; his neck wuz broke. An I ben talkin' to him ever since an tellin' him how I'd gin 40 lives ef I had 'em to see him chummy wit me agen, but I never get no answer."

He stopped, and almost immediately "eight bells" struck, and I went below. After dinner in the evening I was looking over the side at the lovely cool depths smiling beneath, and the fancy suddenly seized me to have a dip, as I had often done before. I could swim but very little, so I made a bowline in the end of a rope, and making it fast so that about a couple of fathoms would trail in the water, I stripped in the chains, slipped the bowline over my head and under my arms and slid down into the sea.

I was enjoying myself in perfect fashion when suddenly I saw a huge black shadow stealing upward from under the ship's bottom toward me, and immediately, my bowels boiling with fear, I lost all my strength, my arms flew up, and I slipped out of the loop. I heard a splash, and close beside me an awful struggle began, while I lay in full possession of all my senses, just floating without motion. Nielsen had sprung into the sea and seized the shark, being all unarmed. Suddenly I felt the coils of a rope fall upon me, and with a sense of returning life I clutched them and was presently hauled on board. I must have fainted, for when I again realized my surroundings Nielsen was lying on deck near me, a wide red stream creeping slowly down from him to the scuppers. Opening his eyes as I staggered to my feet, he said feebly, "Dis'll pay, won't it, boy?" and died.—St. Louis Republic.

**"Ben-Hur's" Close Squeeze.**

Success with a book is something like having lightning strike you. Up at Mackinac last summer General Wallace told me how narrowly "Ben-Hur" escaped publication. It was examined by two of Harper's readers, who reported rather adversely on it, thinking it would not be a good seller. Finally Mrs. Harper, a lady of strong religious tendencies, read it and advised her husband to risk the expense of printing the book. Then there was "Dr. Jekyll and Mr. Hyde," which ran a somewhat similar gantlet and was almost rejected.—Booth Tarkington in Washington Interview.

## DEATHBED CONFESSION

GEORGE WILLIAMS TELLS THE  
STORY OF AN INDIAN TER-  
RITORY MURDER.

### IMPLICATES FOUR OTHERS

Three of Them Arrested but the Other  
Is Already in Prison for Stealing  
Cattle—Object of the Crime Was  
Robbery—The Bodies of the Dead  
Were Placed on the Railroad So as  
to Avoid Suspicion.

Vinita, I. T., June 27.—George Will-  
iams, lying on his deathbed, has con-  
fessed to being an accomplice in the  
murder last September at Prior Creek,  
I. T., of T. E. Smith and Green Smith  
of Sweden, Mo. In his statement Will-  
iams also implicated William Nichols  
of Vinita, William G. Smith and Lon  
Smith of Prior Creek, and John Smith,  
the latter now serving a term in the  
Kansas state penitentiary for cattle  
stealing. Nichols and William G.  
and Lon Smith have been arrested.

The double murder was committed  
for robbery and the officials had given  
up hope of finding the murderers. In  
his statement Williams said the mur-  
dered men were enticed to a point  
two miles south of Prior Creek under  
the pretense of engaging in a game of  
cards and were shot down. The men  
carried a large sum of money, which  
they intended to invest in land. After  
the commission of the crime, Williams  
said, the money was divided and the  
bodies placed on the railroad tracks to  
divert suspicion. The bodies were  
later exhumed by order of relatives,  
when the evidence of murder was first  
found. No clue to the murderers was  
found, however, and until now the  
crime had remained a mystery.

### KILLED BY WOLVES.

John Hochstock of Mellen, Wis., Dies  
After a Terrible Struggle.

Weyauwega, Wis., June 27.—John  
Hochstock of Mellen went hunting and  
failed to return. Parties were organ-  
ized and after a prolonged search one  
of them came upon the scene of a ter-  
rible struggle. Scattered around a  
large open space in the woods they  
found the carcasses of seven wolves.  
The only trace found of Hochstock  
was a few bones, torn shreds of cloth-  
ing, which were identified as his, a  
watch which belonged to him and \$65  
in a pocket of his trousers.

The dog was torn up and deep foot-  
prints of the man's boots were all  
about, showing that he had met the  
onslaught of the savage beasts with  
the phenomenal strength and fortitude  
of a man who sees death staring him  
in the face. Woodsmen are unable  
to account for the attack, as the  
wolves at this time of the year are  
generally not fierce.

### NON-UNION MEN FIRED ON.

Attempted to Go to Work in the Coal  
Mines at Matewan, W. Va.

Matewan, W. Va., June 27.—When  
the non-union men again attempted to  
go to work at the Maratime coal  
mines they were fired upon by strikers  
at a distance. The non-union men  
deemed it best to withdraw and did  
so before any of their number fell  
victims to the deadly bullets. An-  
other battle is imminent between the  
strikers and the federal marshals.  
Ever since they left the union men  
have been preparing for an emer-  
gency, and Marshals Hufford and  
Telto and Superintendent Lambert of  
the Maratime mines are shortly ex-  
pected to arrive here from Charleston.  
It is said that they are heavily rein-  
forced and ready to put an end to all  
the disturbance in this direction. The  
union men are equally determined.  
Bloodshed is feared.

### BRIDEGROOM SUICIDES.

Shoots Himself at the Hour Set for  
the Wedding.

Clarinda, Ia., June 27.—Thomas J.  
Rogers, whose marriage to Miss Inez  
C. Plank, a young lady of this city,  
was set for 6 o'clock p. m., shot him-  
self through the head at that hour in-  
stead of going to the home of the  
bride, where the ceremony was to  
have been performed. Rogers died an  
hour afterward. About 20 invited  
guests assembled for the wedding, but  
soon after 6 o'clock word was brought  
that the groom had killed himself.  
Rogers was 27 years of age. Three  
years ago he inherited \$12,000 from  
his father. He had spent all of this  
amount except \$85.

Honors for Von Schwartzkopf's Body.  
Berlin, June 27.—The body of Gen-  
eral von Schwartzkopf, formerly Gen-  
eral von Waldersee's chief of staff  
and who met his death in the fire  
which destroyed the winter palace at  
Peking April 17, was received with  
great military honors when the North  
German Lloyd steamer Wittkeking,  
from Hlago April 22, arrived at Bre-  
merhaven. From Bremerhaven the  
body of the late general will be con-  
veyed to Berlin, where a mourning  
parade and the firing of the mourning  
salute will take place.

### Morgan's Gift to Harvard.

Cambridge, Mass., June 27.—Presi-  
dent Eliot announced at the Harvard  
annual dinner that John Pierpont  
Morgan had given more than \$1,000,  
000 for the erection of three of the  
five buildings planned for the Har-  
vard medical school in Boston. The  
gift is for the prosecution of "applied  
biological research."

## NOTHING EVER REALIZED.

Affairs of the Gold Fields Syndicate  
Are Wound Up.

Vancouver, B. C., June 27.—The last  
act in the story of a sensational min-  
ing venture was perfected during the  
day when the concern floated for \$2,-  
000,000 in London under the name of  
the Gold Fields of British Columbia  
was wound up.  
The Gold Fields syndicate owned  
the Waverly and Tangier mines, which  
were exploited as extremely rich.  
Compressor, concentrator and other  
plants were purchased for over \$100,-  
000, but were dumped along the trail.  
One pound shares were boomed in  
London to 32 shillings and then the  
crash came. Nothing was ever real-  
ized on the assets. The whole plant  
has been purchased by the Marble Bay  
mines of Texada island and will be in-  
stalled there at once. The Gold Fields  
smash was one of the worst in the his-  
tory of British Columbia mining.

### EVANS WILL NOT QUIT.

Refuses to Resign at Grand Army  
Dictation.

New York, June 27.—A Herald spe-  
cial from Washington says:  
Commissioner of Pensions H. Clay  
Evans declines to resign at the dicta-  
tion of the Grand Army of the Repub-  
lic.

He issued an official statement after  
consultation with personal and polit-  
ical friends, including the president,  
strongly criticizing General Daniel  
Sickles of New York, and questioning  
the statement by the latter and "Cor-  
poral" Tanner that during the last  
campaign the Republican national  
committee wrote a letter to General  
Sickles promising that in the event  
of McKinley's re-election Evans would  
not be reappointed.

### THREE FATALLY BURNED.

Dynamite Shell Destroys Cupola in a  
Chicago Foundry.

Chicago, June 27.—Caught in  
streams of molten metal which  
poured into the cupola room of the  
soft foundry department of the Amer-  
ican Car and Foundry company seven  
workmen were frightfully burned,  
three of them fatally. The explosion  
of a dynamite shell which had been  
placed in the cupola with scrap iron  
caused the accident. When the shell  
had been heated it burst, breaking the  
walls of the cupola, the molten metal  
streaming forth in all directions. Not  
one of the men in the room escaped  
the white hot metal.

### ISSUES A MANIFESTO.

British Navy League Emphasizes De-  
ficiency of the Fleet.

London, June 27.—The Navy league,  
with a view to enlisting public atten-  
tion, has issued a striking manifesto  
in which it emphasizes the deficiency  
of the fleet of Great Britain, especially  
in the Mediterranean squadron. The  
Navy league declares there is a de-  
ficiency in all classes of vessels, from  
battleships to destroyers, as well as  
a complete absence of fleet auxiliary  
of all kinds, while many items, such  
as smokeless powder, telescopic sights,  
etc., necessary in fighting a fleet, are  
lacking.

### Line to Alaska Completed.

Seattle, Wash., June 27.—The Postal  
Telegraphic company announces the  
completion of telegraphic communica-  
tion between this city and Port Simp-  
son, Alaska, via Vancouver, Ashcroft,  
Quesnelle and the Skeena river. The  
line from Dawson in a southerly direc-  
tion is also being pushed. At present  
there remains a gap of 80 miles to  
complete between Hazelton and Tele-  
graph creek. It is hoped to complete  
this by the beginning of winter.

### Venezuelan Judge Imprisoned.

Washington, June 27.—A mail re-  
port just received at the state depart-  
ment from Mr. Russell, the United  
States charge at Caracas, confirms the  
press report of the arbitrary imprison-  
ment by Castro, the acting president,  
of the judge of the court in the provin-  
ce of Curapano, which acted origi-  
nally in the asphalt controversy. This  
is not, however, the chief justice of  
the supreme court, which is to finally  
adjudicate these cases.

### Franchise Rights in Porto Rico.

San Juan, Porto Rico, June 27.—The  
test case of Arpin of Grand Rapids,  
Mich., against Valdez has been de-  
cided by Judge Holt of the United  
States district court in favor of Val-  
dez. Arpin contended that the coun-  
cil illegally granted a franchise for  
water power. The court holds that  
the council has exclusive authority in  
such matters. Arpin will appeal to  
the supreme court.

### Shamrock Again Ready for Trial.

Glasgow, June 27.—The Shamrock  
II has bent her new mainstay and  
shipped the remainder of her gear.  
She will take a sail stretching trial  
in the morning. Her tuning up trials  
will begin this week and continue on  
the Clyde for 10 days, after which the  
cup challenger will be dismantled for  
her passage across the Atlantic.

### Hay Will Not Return to Washington.

Cleveland, June 27.—Secretary of  
State Hay has received a telegram  
from President McKinley consenting  
to the secretary's going directly to his  
summer home at Newbury, N. H. Sec-  
retary Hay will leave Cleveland dur-  
ing the day and will not return to his  
duties at Washington for some time.

### Jamaica Wants Boer Prisoners.

Kingston, Jamaica, June 27.—The  
chamber of commerce has passed a  
resolution asking the governor of  
Jamaica, Sir Augustus Hemming, to  
request the imperial authorities to  
send 2,000 Boer prisoners to this is-  
land. Jamaica offers many and great  
advantages for farming.

## SHORT BUT SEVERE.

Terrific Electric Storm Strikes Pitts-  
burg and Vicinity.

Pittsburg, June 27.—The storm  
which struck Pittsburg and vicinity  
was short in duration but terrific in  
power and disastrous in effect. The  
lightning and thunder was practically  
continuous for about 30 minutes. The  
wind attained a velocity of 30 miles  
an hour and 46 inches of rain fell.  
In two minutes of the time .15 of an  
inch of water fell, which would repre-  
sent 3 inches an hour. The tempera-  
ture fell 24 degs. within an hour. One  
woman was killed instantly by light-  
ning and several other persons may  
die from the same cause. Number-  
less houses and churches were struck  
by lightning and several picnic par-  
ties were panic stricken.

### Hanna Gives a Dormitory.

Gambler, O., June 27.—Senator Han-  
na and Governor Nash participated  
prominently in the commencement ex-  
ercises of Kenyon college, held here.  
The senator at the alumni luncheon in  
the afternoon unexpectedly announced  
that he would give \$50,000 to the in-  
stitution for the building of a dormi-  
tory. A year ago Kenyon college be-  
stowed the degree of LL. D. upon Sen-  
ator Hanna. At Senator Hanna's re-  
quest the new dormitory will be called  
the "Politicians' Barracks."

### Is Guam's First Postmaster.

Washington, June 27.—A report has  
been received at the navy department  
from Commander Seaton Schroeder,  
the naval governor of Guam, dated  
May 8, announcing the appointment of  
Atansio Leitana Perez as postmaster  
of the islands. He is the first post-  
master of Guam and is bonded in \$4,-  
000 Mexican.

### A Tunnel to Monte-Christo's Prison.

Marseilles talks of having a tube of  
a new description, says a Paris cor-  
respondent of the Pittsburgh Dispatch.  
This will be a submarine line connect-  
ing the town with the celebrated Chate-  
au d'If, made famous by Dumas  
pere's "Monte-Christo." The railway  
will be of the electric tubular type.  
The distance between Marseilles' old  
port and the island on which the castle  
stands is a little under one mile, and  
the steamers take half an hour to do  
the trip. As visitors would effect an  
immense saving of time by the tube,  
the proponent of the scheme fully be-  
lieves that he may count upon carrying  
500 passengers to and from per diem, and  
if this sanguine estimate is realized he  
will thus be enabled to cover the enor-  
mous expense of the tunneling works  
and make a profit.

### New American Bank.

The establishment of an American  
bank in Berlin and London is con-  
templated. It is believed that this will  
open the way for American industrial  
undertakings and exports in the coun-  
tries of the old world.

The Washington fire department has  
under consideration a proposal to pur-  
chase two motor vehicles for the use  
of the chief and assistant chief, who go  
to all fires, and an electric company is  
now preparing an estimate of the cost,  
which will not exceed \$1,000 each, it is  
said. The idea is to provide the heads  
of the department with vehicles of  
greater speed and endurance than those  
now in use, says the New York Post's  
correspondent. The chief has two  
horses at his command, but there are  
days when owing to several fire calls  
in remote sections of the city a third  
and even a fourth horse are necessary  
for the relief of the two regulars.  
Should the experiment in Washington  
of using automobiles for the fire chiefs  
prove successful, it is expected that  
other cities will quickly take it up.

### Novel Plan to Stop Drunkenness.

A Kansas soldier in the Philippines  
notes a new temperance force which is  
at work in the army, says the New  
York Tribune. "We have," he says,  
"a lot of native soldiers enlisted here.  
When one of the white boys gets  
drunk, the captain puts a native sol-  
dier over him, and the native puts on  
lots of airs while marching him  
around. It grinds the boys so that  
they wouldn't get drunk if they could."

### To See the New Uniforms.

St. Petersburg, June 27.—The czar  
has granted an audience to General  
von Moltke, nephew of the late field  
marshal, and Lieutenant Usedom, who  
have come here with the purpose of  
submitting the new German field  
service uniform to the inspection of  
the czar.

### Car and Horse Cart Collide.

Montgomery, Ala., June 27.—A col-  
lision on Hull street between a trolley  
car and a horse cart killed J. W. Sykes,  
captain of steamer No. 2, and injured  
four others. The conductor and mo-  
torman of the trolley were arrested.

### Desires Obligatory Arbitration.

Managua, Nicaragua, June 27.—Se-  
nor Chocano, representing Peru, Bo-  
livia and Argentine, in declaring that  
arbitration should be obligatory, is  
expected in Nicaragua soon to ad-  
vocate her co-operation in the matter.

### Geronimo Goes to Buffalo.

Kansas City, June 27.—Geronimo,  
the Apache chief, with six other In-  
dians, passed through Kansas City  
during the morning on the way from  
Fort Sill, I. T., to the Pan-American  
exposition at Buffalo.

In the wreck of the Wabash flyer  
at Peru, Ind., 16 persons were killed  
and 50 injured.

Destructive gales with heavy loss  
of life and great damage to shipping  
are reported from the Fiji Islands.

The 19thth commencement of Yale  
university was held Wednesday under  
the most pleasant conditions. Degrees  
were conferred upon 576 candidates.

Lieutenant Colonel James Allen,

### A RARE VOLUME BY PENN.

Only Known Copy Is Owned by  
Quakers in Philadelphia.

The only known copy of Penn's issue  
of "Magna Charta," published in 1687  
by the Bradford Press, is the property  
of the Meeting For Sufferings, a repre-  
sentative body of the Friends' yearly  
meeting in Philadelphia. Its title is  
"The Excellent Privilege of Liberty  
and Propriety: Being the Birthright of  
the Freeborn Subjects of England." The  
copy is not generally open to the public.

The peculiar significance of this book  
is that a half dozen years after Penn  
founded his colony he wished to have  
the colonists keenly realize that they  
would have to stand for their rights in  
the new country as well as the old,  
where they had been so cruelly per-  
secuted. He wrote this book in order that  
they might be informed on the consti-  
tution of their local government and  
know what were the legal bases of  
their rights as citizens.  
Curiously enough the only proof  
there is that this work was William  
Penn's is the statement made by Chief  
Justice David Lloyd in 1728, a great  
Quaker leader who was Penn's attor-  
ney general at the time the book was  
issued. Chief Justice Lloyd was also  
at that time an intimate friend of Wil-  
liam Penn and consequently knew  
whereof he spoke.

The volume was reproduced in fac-  
simile by the Philobiblon club in 1897  
for a limited number of subscribers.  
The original volume, however, must al-  
ways remain the rare thing that it is,  
one of the best expressions of liberty  
under law that the mind of the great  
founder could conceive.—Philadelphia  
Press.

### After a Struggle.

"George," said a fond mother to a  
little 4-year-old, "you must take the  
umbrella to school with you or you  
will get wet. It rains hard."

"I want the little one," he said,  
meaning the parasol.  
"No, my dear. That is for dry weath-  
er. You must take this and go like a  
good boy."

George did as he was bid and got to  
school comfortably.

After school hours it had stopped  
raining, and George trudged home  
with the remnants of the umbrella un-  
der his arm.

"Oh, George, what have you been  
doing with my umbrella?" said his  
mother when she saw the state it was  
in.

"You should have let me had the lit-  
tle one," said he. "This was such a  
great one it took four of us to pull it  
thru the door."—Leslie's Weekly.

## NIELSEN'S AMENDS

By FRANK T. EULLEN.

Hans Nielsen was a big Dane, a  
sailor on board of an American built  
ship owned in Liverpool and bound  
thence to Batavia. I was "the boy."  
He told me this story one night in the  
middle watch:

"Twuz like dis: We wuz a-creepin  
along up de coast ov Lower California,  
de weadder bein beastly, nuttin but  
one heavy squall on top ov another an  
de wind a-flyin all aroun' de compass.

One forenoon 'bout seven bells we'd  
ben a shortenin down at de main an  
wuz all a-comin down helter skelter,  
de mate an 'tird mate standin by in  
de skippers as ushal to belt each man  
as he touched de deck fur not bein  
smarter. I come slidin down de top-  
mast backstays an dropped on to de  
deck jest be'ind de mate as Scotty, my  
chum, 'anded in front ov him. De mate  
jest let out an feteched Scotty in de  
ear. Pore little chap, he dung up his  
arms, an, spoutin blood like a whale,  
dropped all ov a heap in his tracks.

"I don't rightly know how 'twuz, but  
next 'ting I'd got de mate (an he wuz  
nearly as big as Sam) by de two ankles,  
a-swingin him aroun' my head 'sif he  
wuz a caps'n bar. He hit somethin—I  
s'pose it wuz de tops'l hayard block—an  
it sounded like a bag ov eggs. De  
rest ov de proceedin's wuz all foggy  
like to me, 'cept dat I was feelin 'bout  
as big an strong as 20 men rolled into  
one, an I seemed to be a-smashin all  
creation into bloody pieces. I he'rd de  
poppin ov revolver shots in hundrede,  
but I didn't feel none ov 'em. Present-  
ly it all quieted down, an dere wuz me  
a-settin on

## DEATHBED CONFESSION

GEORGE WILLIAMS TELLS THE  
STORY OF AN INDIAN TER-  
RITORY MURDER.

IMPLICATES FOUR OTHERS

Three of Them Arrested but the Other  
Is Already in Prison for Stealing  
Cattle—Object of the Crime Was  
Robbery—The Bodies of the Dead  
Were Placed on the Railroad So as  
to Avoid Suspicion.

Vinita, I. T., June 27.—George Wil-  
liams, lying on his deathbed, has con-  
fessed to being an accomplice in the  
murder last September at Prior Creek,  
I. T., of T. E. Smith and Green Smith  
of Sweden, Mo. In his statement Wil-  
liams also implicated William Nichols  
of Vinita, William G. Smith and Lon  
Smith of Prior Creek, and John Smith,  
the latter now serving a term in the  
Kansas state penitentiary for cattle  
stealing. Nichols and William G.  
and Lon Smith have been arrested.  
The double murder was committed  
for robbery and the officials had given  
up hope of finding the murderers. In  
his statement Williams said the mur-  
dered men were enticed to a point  
two miles south of Prior Creek under  
the pretense of engaging in a game of  
cards and were shot down. The men  
carried a large sum of money, which  
they intended to invest in land. After  
the commission of the crime, Williams  
said, the money was divided and the  
bodies placed on the railroad tracks to  
divert suspicion. The bodies were  
later exhumed by order of relatives,  
when the evidence of murder was first  
found. No clue to the murderers was  
found, however, and until now the  
crime had remained a mystery.

KILLED BY WOLVES.

John Hochstock of Mellen, Wis., Dies  
After a Terrible Struggle.

Weyauwega, Wis., June 27.—John  
Hochstock of Mellen went hunting and  
failed to return. Parties were organ-  
ized and after a prolonged search one  
of them came upon the scene of a ter-  
rible struggle. Scattered around a  
large open space in the woods they  
found the carcasses of seven wolves.  
The only trace found of Hochstock  
was a few bones, torn shreds of cloth-  
ing, which were identified as his, a  
watch which belonged to him and \$65  
in a pocket of his trousers.  
The sod was torn up and deep foot-  
prints of the man's boots were all  
about, showing that he had met the  
onslaught of the savage beasts with  
the phenomenal strength and fortitude  
of a man who sees death staring him  
in the face. Woodsmen are unable  
to account for the attack, as the  
wolves at this time of the year are  
generally not fierce.

NON-UNION MEN FIRED ON.

Attempted to Go to Work in the Coal  
Mines at Matewan, W. Va.

Matewan, W. Va., June 27.—When  
the non-union men again attempted to  
go to work at the Maratime coal  
mines they were fired upon by strikers  
at a distance. The non-union men  
deemed it best to withdraw and did  
so before any of their number fell  
victims to the deadly bullets. An-  
other battle is imminent between the  
strikers and the federal marshals.  
Ever since they left the union men  
have been preparing for an emer-  
gency, and Marshals Hufford and  
Telto and Superintendent Lambert of  
the Maratime mines are shortly ex-  
pected to arrive here from Charleston.  
It is said that they are heavily rein-  
forced and ready to put an end to all  
the disturbance in this direction. The  
union men are equally determined.  
Bloodshed is feared.

BRIDEGROOM SUICIDES.

Shoots Himself at the Hour Set for  
the Wedding.

Clarinda, Ia., June 27.—Thomas J.  
Rogers, whose marriage to Miss Inez  
C. Plank, a young lady of this city,  
was set for 6 o'clock p. m., shot him-  
self through the head at that hour in-  
stead of going to the home of the  
bride, where the ceremony was to  
have been performed. Rogers died an  
hour afterward. About 20 invited  
guests assembled for the wedding, but  
soon after 6 o'clock word was brought  
that the groom had killed himself.  
Rogers was 27 years of age. Three  
years ago he inherited \$12,000 from  
his father. He had spent all of this  
amount except \$85.

Honors for Von Schwartzkopf's Body.  
Berlin, June 27.—The body of Gen-  
eral von Schwartzkopf, formerly Gen-  
eral von Waldersee's chief of staff  
and who met his death in the fire  
which destroyed the winter palace at  
Peking April 17, was received with  
great military honors when the North  
German Lloyd steamer Witteking,  
from Hogo April 22, arrived at Bre-  
merhaven. From Bremerhaven the  
body of the late general will be con-  
veyed to Berlin, where a mourning  
parade and the firing of the mourning  
salute will take place.

Morgan's Gift to Harvard.

Cambridge, Mass., June 27.—Pres-  
ident Eliot announced at the Harvard  
alumni dinner that John Pierpont  
Morgan had given more than \$1,000,  
000 for the erection of three of the  
five buildings planned for the Har-  
vard medical school in Boston. The  
gift is for the prosecution of "applied  
biological research."

NOTHING EVER REALIZED.

Affairs of the Gold Fields Syndicate  
Are Wound Up.

Vancouver, B. C., June 27.—The last  
act in the story of a sensational min-  
ing venture was perfected during the  
day when the concern floated for \$2,  
000,000 in London under the name of  
the Gold Fields of British Columbia  
was wound up.  
The Gold Fields syndicate owned  
the Waverly and Tangier mines, which  
were exploited as extremely rich.  
Compressor, concentrator and other  
plants were purchased for over \$100,  
000, but were dumped along the trail.  
One pound shares were boomed in  
London to 32 shillings and then the  
crash came. Nothing was ever real-  
ized on the assets. The whole plant  
has been purchased by the Marble Bay  
mines of Texada island and will be in-  
stalled there at once. The Gold Fields  
smash was one of the worst in the his-  
tory of British Columbia mining.

EVANS WILL NOT QUIT.

Refuses to Resign at Grand Army  
Dictation.

New York, June 27.—A Herald spe-  
cial from Washington says:  
Commissioner of Pensions H. Clay  
Evans declines to resign at the dic-  
tation of the Grand Army of the Repub-  
lic.  
He issued an official statement after  
consultation with personal and po-  
litical friends, including the president,  
strongly criticizing General Daniel  
Sickles of New York, and questioning  
the statement by the latter and "Cor-  
poral" Tanner that during the last  
campaign the Republican national  
committee wrote a letter to General  
Sickles promising that in the event  
of McKinley's re-election Evans would  
not be reappointed.

THREE FATALLY BURNED.

Dynamite Shell Destroys Cupola in a  
Chicago Foundry.

Chicago, June 27.—Caught in  
streams of molten metal which  
poured into the cupola room of the Amer-  
ican Car and Foundry company seven  
workmen were frightfully burned,  
three of them fatally. The explosion  
of a dynamite shell which had been  
placed in the cupola with scrap iron  
caused the accident. When the shell  
had been heated it burst, breaking the  
walls of the cupola, the molten metal  
streaming forth in all directions. Not  
one of the men in the room escaped the  
white hot metal.

ISSUES A MANIFESTO.

British Navy League Emphasizes De-  
ficiency of the Fleet.

London, June 27.—The Navy league,  
with a view to enlisting public atten-  
tion, has issued a striking manifesto  
in which it emphasizes the deficiency  
of the fleet of Great Britain, especially  
in the Mediterranean squadron. The  
Navy league declares there is a de-  
ficiency in all classes of vessels, from  
battleships to destroyers, as well as  
a complete absence of fleet auxiliary  
of all kinds, while many items, such  
as smokeless powder, telescopic sights,  
etc., necessary in fighting a fleet, are  
lacking.

Line to Alaska Completed.

Seattle, Wash., June 27.—The Postal  
Telegraphic company announces the  
completion of telegraphic communica-  
tion between this city and Port Simp-  
son, Alaska, via Vancouver, Ashcroft,  
Quesnelle and the Skeena river. The  
line from Dawson in a southerly direc-  
tion is also being pushed. At present  
there remains a gap of 80 miles to  
complete between Hazelton and Tele-  
graph creek. It is hoped to complete  
this by the beginning of winter.

Venezuelan Judge Imprisoned.

Washington, June 27.—A mail re-  
port just received at the state depart-  
ment from Mr. Russell, the United  
States charge at Caracas, confirms the  
press report of the arbitrary imprison-  
ment by Castro, the acting president,  
of the judge of the court in the prov-  
ince of Curapano, which acted origi-  
nally in the asphalt controversy. This  
is not, however, the chief justice of  
the supreme court, which is to finally  
adjudicate these cases.

Franchise Rights in Porto Rico.

San Juan, Porto Rico, June 27.—The  
test case of Arpin of Grand Rapids,  
Mich., against Valdez has been de-  
cided by Judge Holt of the United  
States district court in favor of Val-  
dez. Arpin contended that the coun-  
cil illegally granted a franchise for  
water power. The court holds that  
the council has exclusive authority in  
such matters. Arpin will appeal to  
the supreme court.

Shamrock Again Ready for Trial.

Glasgow, June 27.—The Shamrock  
II has bent her new mainstay and  
shipped the remainder of her gear.  
She will take a sail stretching spin  
in the morning. Her tuning up trials  
will begin this week and continue on  
the Clyde for 10 days, after which the  
cup challenger will be dismantled for  
her passage across the Atlantic.

Hay Will Not Return to Washington.

Cleveland, June 27.—Secretary of  
State Hay has received a telegram  
from President McKinley consenting  
to the secretary's going directly to his  
summer home at Newbury, N. H. Sec-  
retary Hay will leave Cleveland dur-  
ing the day and will not return to his  
duties at Washington for some time.

Jamaica Wants Boer Prisoners.

Kington, Jamaica, June 27.—The  
chamber of commerce has passed a  
resolution asking the governor of  
Jamaica, Sir Augustus Hemming, to  
request the imperial authorities to  
send 3,000 Boer prisoners to this is-  
land. Jamaica offers many and great  
advantages for farming.

SHORT BUT SEVERE.

Terrific Electric Storm Strikes Pitts-  
burg and Vicinity.

Pittsburg, June 27.—The storm  
which struck Pittsburg and vicinity  
was short in duration but terrific in  
power and disastrous in effect. The  
lightning and thunder was practically  
continuous for about 30 minutes. The  
wind attained a velocity of 30 miles  
an hour and 46 inches of rain fell.  
In two minutes of the time .15 of an  
inch of water fell, which would repre-  
sent 3 inches an hour. The tempera-  
ture fell 24 degs. within an hour. One  
woman was killed instantly by light-  
ning and several other persons may  
die from the same cause. Number-  
less houses and churches were struck  
by lightning and several picnic parties  
were panic stricken.

Hanna Gives a Dormitory.

Gambler, O., June 27.—Senator Han-  
na and Governor Nash participated  
prominently in the commencement ex-  
ercises of Kenyon college, held here.  
The senator at the alumni luncheon  
in the afternoon unexpectedly announced  
that he would give \$50,000 to the in-  
stitution for the building of a dormi-  
tory. A year ago Kenyon college be-  
stowed the degree of LL. D. upon Sen-  
ator Hanna. At Senator Hanna's re-  
quest the new dormitory will be called  
the "Politicians' Barracks."

Is Guam's First Postmaster.

Washington, June 27.—A report has  
been received at the navy department  
from Commander Seaton Schroeder,  
the naval governor of Guam, dated  
May 8, announcing the appointment of  
Atanilo Leitana Perez as postmaster  
of the islands. He is the first post-  
master of Guam and is bonded in \$4,  
000 Mexican.

A Tunnel to Monte-Christo's Prison.

Marseilles talks of having a tube of  
a new description, says a Paris cor-  
respondent of the Pittsburg Dispatch.  
This will be a submarine line connect-  
ing the town with the celebrated Cha-  
teau d'If, made famous by Dumas  
pere's "Monte-Christo." The railway  
will be of the electric tubular type.  
The distance between Marseilles' old  
port and the island on which the castle  
stands is a little under one mile, and  
the steamers take half an hour to do  
the trip. As visitors would effect an  
immense saving of time by the tube,  
the proponent of the scheme fully be-  
lieves that he may count upon carrying  
600 passengers to and from per diem, and  
if this sanguine estimate is realized he  
will thus be enabled to cover the enor-  
mous expense of the tunneling works  
and make a profit.

New American Bank.

The establishment of an American  
bank in Berlin and London is con-  
templated. It is believed that this will  
open the way for American industrial  
undertakings and exports in the coun-  
tries of the old world.

The Washington fire department has  
under consideration a proposal to pur-  
chase two motor vehicles for the use  
of the chief and assistant chief, who go  
to all fires, and an electric company is  
now preparing an estimate of the cost,  
which will not exceed \$1,000 each. It  
is said. The idea is to provide the heads  
of the department with vehicles of  
greater speed and endurance than those  
now in use, says the New York Post's  
correspondent. The chief has two  
horses at his command, but there are  
days when owing to several fire calls  
in remote sections of the city a third  
and even a fourth horse are necessary  
for the relief of the two regulars.  
Should the experiment in Washington  
of using automobiles for the fire chiefs  
prove successful, it is expected that  
other cities will quickly take it up.

Novel Plan to Stop Drunkenness.

A Kansas soldier in the Philippines  
notes a new temperance force which is  
at work in the army, says the New  
York Tribune. "We have," he says,  
"a lot of native soldiers enlisted here.  
When one of the white boys gets  
drunk, the captain puts a native sol-  
dier over him, and the native puts on  
lots of airs while marching him  
around. It grinds the boys so that  
they wouldn't get drunk if they could."

To See the New Uniforms.

St. Petersburg, June 27.—The czar  
has granted an audience to General  
von Moltke, nephew of the late field  
marshal, and Lieutenant Usedom, who  
have come here with the purpose of  
submitting the new German field  
service uniform to the inspection of  
the czar.

Car and Horse Cart Collide.

Montgomery, Ala., June 27.—A col-  
lision on Hull street between a trolley  
car and a horse cart killed J. W. Sykes,  
captain of steamer No. 2, and injured  
four others. The conductor and mo-  
torman of the trolley were arrested.

Desires Obligatory Arbitration.

Managua, Nicaragua, June 27.—Se-  
nor Chocano, representing Peru, Bo-  
livia and Argentina, in declaring that  
arbitration should be obligatory, is  
expected in Nicaragua soon to advo-  
cate her co-operation in the matter.

Geronimo Goes to Buffalo.

Kansas City, June 27.—Geronimo,  
the Apache chief, with six other In-  
dians, passed through Kansas City  
during the morning on the way from  
Fort Sill, I. T., to the Pan-American  
exposition at Buffalo.

A RARE VOLUME BY PENN.

Only Known Copy Is Owned by  
Quakers in Philadelphia.

The only known copy of Penn's issue  
of "Magna Charta," published in 1687  
by the Bradford Press, is the property  
of the Meeting for Sufferings, a repre-  
sentative body of the Friends' yearly  
meeting in Philadelphia. Its title is  
"The Excellent Privilege of Liberty  
and Propriety: Being the Birthright of  
the Freeborn Subjects of England." The  
copy is not generally open to the  
public.

The peculiar significance of this book  
is that a half dozen years after Penn  
founded his colony he wished to have  
the colonists keenly realize that they  
would have to stand for their rights in  
the new country as well as the old,  
where they had been so cruelly per-  
secuted. He wrote this book in order that  
they might be informed on the consti-  
tution of their local government and  
know what were the legal bases of  
their rights as citizens.

Curiously enough the only proof  
there is that this work was William  
Penn's is the statement made by Chief  
Justice David Lloyd in 1728, a great  
Quaker leader who was Penn's attor-  
ney general at the time the book was  
issued. Chief Justice Lloyd was also  
at that time an intimate friend of Wil-  
liam Penn and consequently knew  
whereof he spoke.

The volume was reproduced in fac-  
simile by the Philobiblon club in 1897  
for a limited number of subscribers.  
The original volume, however, must al-  
ways remain the rare thing that it is,  
one of the best expressions of liberty  
under law that the mind of the great  
founder could conceive.—Philadelphia  
Press.

After a Struggle.

"Georgie," said a fond mother to a  
little 4-year-old, "you must take the  
umbrella to school with you, or you  
will get wet. It rains hard."

"I want the little one," he said,  
meaning the parasol.

"No, my dear. That is for dry weath-  
er. You must take this and go like a  
good boy."

Georgie did as he was bid and got to  
school comfortably.

After school hours it had stopped  
raining, and Georgie trudged home  
with the remnants of the umbrella un-  
der his arm.

"Oh, Georgie, what have you been  
doing with my umbrella?" said his  
mother when she saw the state it was  
in.

"You should have let me had the lit-  
tle one," said he. "This was such a  
great one it took four of us to pull it  
through the door."—Leslie's Weekly.

NIELSEN'S AMENDS

By FRANK T. BULLEN.

Hans Nielsen was a big Dane, a  
sailor on board of an American built  
ship owned in Liverpool and bound  
thence to Batavia. I was "the boy."  
He told me this story one night in the  
middle watch:

"Twuz like dis: We wuz a-creepin  
along up de coast ov Lower California,  
de weadder bein beastly, nuttin but  
one heavy squ
